

GM representatives to discuss interviewing

UNL business and engineering students will have the opportunity to learn about General Motors' college interviewing policies and see the company's 1984 Corvette Friday.

Gregory Hacias will conduct a session on interview policies at 10:30 a.m. in the third floor student lounge at the College of Business Administration.

Hacias, a member of the 1971 national championship UNL football team, will explain GM's expectations of job candidates and answer questions.

Students can see the 1984 Corvette, GM's

"state-of-the-art technology in car design," at 1:30 p.m. at the Nebraska Engineering Center.

David McLellan, a chief engineer in GM's Chevrolet Engineering Center, will present a lecture on the design of the car.

McLellan also will present the keynote address at a luncheon for UNL engineering and business students.

Also visiting UNL will be UNL alumni Reuben Jensen, GM executive vice president and Gerald Roslund, GM statistical programs administrator.

THE BEST OF THE ROCKIES IS YOURS.
