

## AIR FORCE ENGINEERING

Be an Air Force engineer, with high responsibility and trust, and let the Air Force help you pursue an advanced degree.

- Fine-tune your professional engineering skills.
- Develop management skills through project responsibility.
- Continue graduate studies.
- The Air Force pays up to 75% of tuition.
- In many cases, the Air Force pays full tuition and fees.

Continue your professional growth and education as an Air Force engineer. Contact:

## One World Crusaders working for unification

By Deb Morrison

The International One World Crusade will bring its message to Lincoln beginning at 1 p.m. today with a speech on "God and the Future of America."

The Crusade is a function of the Unification Church led by the Rev. Sun Myung Moon. Its purpose, according to Rev. Doris Orme of the crusade, is to spread the church's message worldwide.

Nebraska is the 13th state the crusade has traveled to so far, Orme said.

"It is a crucial moment for mankind at this hour," Orme said. The crusade is an attempt to bring unity among Christians, she said.

Orme said she met Moon in 1965, and has traveled and lived with him for months at a time. Moon, she said, is a revelation from God and his church is here to teach Christians how to love and unify among themselves.

According to the January issue of the *Unification News*, there are 50 mobile teams on the crusade that move to a new city every 21 days.

Orme said the message of the three-year crusade is to warn the United States to unite against the forces of communism and atheism. People from all walks of life need to join together to achieve that purpose, she said.

The speech today in the Nebraska Union Rostrum will be followed by an Interdenominational Ecumenical Ministers' breakfast Feb. 11 at the Cornhusker Hotel. The breakfast is designed to unite different denominations.

A rally is scheduled Feb. 11 at 7 p.m. The program will feature groups serious about stopping the spread of communism, Orme said.

A variety show featuring Orme, a gospel singer, and the World Crusade Sunburst band will be scheduled later, she said.

## Game Gals

Now opening at 8:00 a.m. for University students and Downtown Business.

Come in and enjoy a FREE cup of coffee between 8:00 and 11:00 a.m. with Student I.D. or mention where you work downtown.

Show your student I.D. and get 1/2 off the regular price on all sandwiches.

Show I.D. and get 1 FREE token.

GAMES\* GAMES\* GAMES

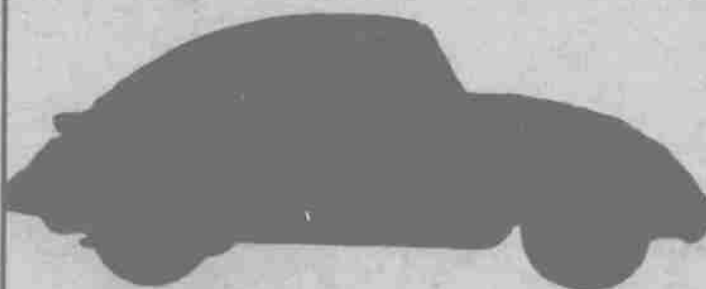

14 & Q

Present your Student I.D. and get 10 tokens for \$1.00 from 7:00 p.m.-10:00 p.m. on Monday and Tuesday night.

Cliffhanger and Jr. Pac man are here!

## Off The Wire

National and international news from the Reuter News Report

### Economic advisers agree: defense may need cut

WASHINGTON — White House economic advisers Thursday agreed President Reagan's 1985 defense spending request might have to be cut but differed over whether major new tax increases were required to reduce huge federal budget deficits. Budget Director David Stockman, Treasury Secretary Donald Regan and Chief Economic Adviser Martin Feldstein said the administration might be willing to compromise on Reagan's \$264.4 billion arms budget. But Feldstein took a different line on the tax issue, telling reporters: "Unless there is a significant change in priorities we are going to have to have additional tax revenues." The White House willingness to compromise on defense spending was seen as a major election-year concession to Congress.

### Shuttle ready despite repairs

KENNEDY SPACE CENTER — Several pieces of essential equipment have been replaced or repaired on the space shuttle Challenger in advance of its fourth space flight today, officials said Thursday. After several technical problems with the orbiter Columbia's mission in December, Challenger was painstakingly checked in an effort to prevent similar troubles on its flight, the head of the shuttle program, Lt. Gen. James Abrahamson, told a pre-launch press conference.

The shuttle chief boasted that despite the repairs and replacements, the launch team was still able to keep Challenger on schedule for today's 7 a.m. CST launching.

### Sway in 'Baby Doe' cases limited

WASHINGTON — The House of Representatives Thursday voted to limit government involvement in medical treatment of severely handicapped infants. The House acted by defeating legislation which would have required states to set up local medical boards to review decisions on the treatment of handicapped infants in line with guidelines set by the Health and Human Services Department in so-called "Baby Doe" cases. The cases involved parents who wanted to let their infant born with severe birth defects die. The federal government sued, asking that medical treatment be ordered to protect the rights of the baby, but the courts said the decision was up to the parents. The 231-182 vote came on an amendment to a bill, later passed by the House, to continue funding for a national child abuse and neglect center. The bill does require that severely handicapped infants receive nutrition and general care.

### EDB restrictions announced

WASHINGTON — U.S. Environmental Protection Agency Administrator William Ruckelshaus today will announce restrictions on use of the cancer-causing pesticide ethylene dibromide, government officials said Thursday.

Only trace levels of the chemical, found to cause cancer in laboratory animals, would be allowed in grains and processed food products, they said. Restrictions on EDB for fruits and citrus could hurt the Caribbean countries that export these products to the United States, offsetting many economic benefits under President Reagan's Caribbean Basin Initiative, the officials said.

They questioned a Washington Post report up to eight percent of the corn, two percent of wheat and 13 percent of grain-based foods on grocery shelves would have to be destroyed because of the tough new standards.

### Canadian sets sleep-less record

FORT ERIE, Canada — An unemployed Canadian carpenter finally went to bed Thursday after claiming a world record for staying awake for almost 19 days. Victor Judd, 22, said after his 18-day, 20-hour bid to get into the Guinness Book of Records that he was "feeling just fine, I'm not even tired. I just had three hours' sleep on the couch and I expect to get a good night's sleep tonight."

He and three friends set out after an all-night poker game to beat the record of 18 days and 17 hours set by a British woman seven years ago.

Now you too can brighten your life the way even the simplest French peasant does.
