Rental stores, such as Cari Rentals, 2619 Holdrege; and Ace Furniture — TV Appliance Inc., 2429 O St., also rent refrigerators as well as televisions, small kitchen appliances and furniture.

Bob Miller, vice president of Cari Rentals, said sofas and televisions may be rented for \$25 a month. Many rental companies also offer repair and delivery services free of charge.

Students can get more information on rental furniture by calling 1-800-FOR-RENT. The Furniture Rental Association of America established the number to assist students who need furniture.

The Nebraska Union will have a plant sale Thursday and Friday. Interior designer Susan Fecht, however, warns that too many plants may clutter a small room.

Fecht said the best way to decorate a small living space is to choose a simple design pattern and articles that serve dual purposes. Such articles include hide-a-bed sofas and stacked milk crates to serve as shelves, storage areas or even tables.

Shorts

Today is the last day to add courses without written permission. Courses may be dropped until Oct. 19. To drop courses: 1. Complete drop/add form. 2. Have drop/add fee assessed at the Office of Student Accounts, Administration 204, and pay \$5 fee at Bursar's Office. 3. Go to Administration 103 to process drop/add.

Fran Loetterle, former president of Ramada Inns and current chairman of the Franchise Studies Development Program at UNL, will speak in the CBA lounge at 7 p.m. Loetterle's speech is sponsored by the UNL Franchise Club and is titled "Franchising: The Business of the '80s."

"Election '84 Special: The Exon/Hoch Debate," will air today at 12:30 p.m. on the Nebraska ETV Network. The special will cover U.S. Senator J. James Exon and challenger Nancy Hoch in a live debate at the Open Air Auditorium on the Nebraska State Fair grounds.

Starting Friday, "Laser Fantasies," a colorful sight and sound presentation will be shown at Mueller Planetarium. The planetarium is located in Morrill Hall at 14th and U streets. Tickets are \$3.50 per show.

Is your calculator in the same class you are?

Move up to the TI-66. The easy 512 step programmable.

You're into higher math and your old calculator helped get you there.

But now it's time for something more. The TI-66 from Texas Instruments. The TI-66 offers full programming power and flexibility so you can solve complex and repetitive math problems quickly, easily and with fewer keystrokes than you thought possible. Its 512 merged program steps and over 170 built-in scientific, engineering and statistical functions make for powerful program-

ming. And the sleek, streamlined design makes for easy use.

Its Algebraic Operating System makes it easy on your brain by allowing you to key in problems as they are written, left to right. And a 10-digit angled Liquid Crystal Display not only makes it easy on your eyes but provides alphanumeric notation of your program steps so you can make easy modifications as you go along. There are large, readable keys for your fingers, and an easy-to-follow

guidebook so you shouldn't get confused. And last, but certainly not least, at a suggested retail of \$69.95, there's a price that's easy on your pocketbook.

All in all, if we made the TI-66 programmable calculator any easier to use, it would deserve its own degree.
