

Senior checks...

Continued from Page 1

son in a day is 10 to 12.

Pence estimates that 1,500 senior check applications are received from College of Arts and Science students each year. Thomsen said the maximum number of checks that can be processed by one per-

Senior checks are processed according to graduation date and the date of application. A student graduating in May 1985, will receive priority over a student graduating in December 1985. If

both students are graduating in May, the check is processed on a first-come, first-served basis.

Thomsen said little has changed in the senior check process during the years.

"I've been in this business since 1948 and I'll tell you it's no different now than it was then," she said. "It's a thankless job. If everything goes right the adviser is great. But if something goes wrong, it's always the senior check peoples' fault. We just try to smile and keep putting them out."

New Student Orientation seeks 15 ambassadors

The office of New Student Orientation is looking for 15 outstanding undergraduates to serve as student hosts for 1985-86. Hosts will act as ambassadors for UNL, giving new students, parents and other campus guests their first impression of UNL.

In the summer, each host works a 40-hour week, for which they receive a salary plus free room and board in one of the UNL residence halls during the first half of the summer. Hosts are required to attend a 10-week training course that meets on Tuesday nights in the spring to help them prepare for their job.

Each host represents one of the university colleges. Hosts serve a one-year appointment from Feb. 11, 1985 to Jan. 31, 1986. During the school year they give campus tours, visit high schools around the state and assist with various orientation programs.

Applications will be available Oct. 19 in the Campus Activities and Programs Office or from your College Dean's office. The closing date for applications is Nov. 30. Call 472-2454 for more information.

Joel Sartore/Daily Nebraskan

Michael Sabin, a freshman in mechanical engineering, takes time out between classes Thursday to listen to a prerecorded message concerning the four tusked mastodon skeleton in Morrill Hall.

"Whenever I've got time before algebra I come in here," Sabin said. "I used to come in here when I was a kid... it's kind of a neat place."
