### Thousands join protest over Aquino reports

MANILA — About 10,000 people demanding the resignation of President Ferdinand Marcos marched into central Manila Thursday to protest official reports on the murder last year of Philippine opposition leader Benigno Aquino. The demonstrators, chanting "Marcos resign" and waving red and yellow flags, were led by the former senator's widow, Corazon Aquino, and his brother Agapito, who said the president should have been implicated in the reports. Agapito said protest marches would continue with or without official permission. Thursday's march was illegal although organizers did have a permit to hold a rally. Police did not interfere and reported no incidents.

A report released Wednesday by four of the five members of an inquiry commission said the armed forces chief of staff, Gen. Fabian Ver, two other generals, 22 soldiers and a civilian were part of a conspiracy to kill Aquino. A separate report issued earlier by the commission's chairman, former Judge Corazon Agrava, named only seven soldiers including one of the lower ranking generals. Marcos has ordered a special ombudsman's office that investigates civil and criminal complaints against government officials to deal with both reports and the office announced the start of its preliminary investigation. Ver went on temporary leave pending resolution of the case and Lt. Gen. Fidel Ramos, his deputy, was named to replace him.

### Ethiopians will get food by air

ADDIS ABABA, Ethiopia — The Ethiopian government, stepping up operations against a potentially catastrophic drought, plans a massive airlift of food to remote areas which cannot be reached by road, official relief sources said Thursday. The government's Relief and Rehabilitation Commission was to hold an emergency meeting with Western donor governments and agencies shortly to discuss the plan, RRC sources said. Wednesday RRC chief Dawit Wolde Giorgis appealed to the international community to mount an airborne relief operation, saying time was running out for many of the 6.4 million people facing starvation in Ethiopia's worst drought in 10 years.

In an unprecedented step, the RRC this week began using two Soviet-built Antonov military transport aircraft to ferry emergency food supplies to some 50,000 people who have sought shelter in the northern town of Makalle, the sources said. The U.N. World Food Program warned this month that almost one million Ethiopians could starve unless there was a huge supply of emergency food aid by the end of November.

Western diplomats said Washington was paying for the fuel for the two Soviet-built aircraft in use in Ethiopia. U.S. Aid officials said Washington was sending nearly \$40 million worth of grain and over \$6 million to help with transport costs.

### Arrests put Mafia 'on the run'

PALERMO, Sicily — Fifty-four more suspected Mafia members have been rounded up on evidence provided by former godfather Tommaso Buscetta, whose revelations already have put 70 people behind bars, police said. The overnight arrests, mostly in the Palermo area, followed an operation late in September when police detained 70 suspects and served 200 warrants on people already in jail. Magistrates acting on tips by Buscetta have ordered the arrest of 366 people on charges including murder, drug trafficking and possession of arms.

In New York Wednesday leaders of the Colombo "crime family" were indicted in a federal court. "We have the Mafia on the run," U.S. Attorney General William French Smith said in announcing the indictment of 11 Colombo "family" members on charges of racketeering, extortion, theft and bribery of federal officials.

### Shi'ite militia captures kidnappers

BEIRUT — The Shi'ite Moslem militia Ama said Thursday night it had arrested the kidnappers of four Lebanese employees of the Associate Press news agency who were freed unharmed earlier after being held for 32 hours. Citing "security reasons," the source declined to identify the kidnappers, say how many were being held or specify what punishment was envisaged.

AP Middle East Chief Correspondent Terry Anderson said the four were released Thursday afternoon by gunmen who refused to give their identity or any reason for the abduction. The four had been driving to work Wednesday morning when they were seized two blocks from the AP office. Their release appeared to have been secured largely with the help of Justice Minister and Amal leader Nabih Berri, Anderson said. The four are office manager Charles Assi, driver Moheddine Habal, radio monitor Khazen Abboud and Accountant Nicola Chaftari.
