THE MOST DANGEROUS PLACE ON EARTH!

—NOT in your car on New Year's Eve...
—NOT at the bottom of a coal mine...
—NOT swimming in shark-infested waters...
—NOT even on the front lines of a battle field!

Right now, your chances of being killed would be higher than 50% if you happened to be in your own mother's womb! What God intended to be the safest of all places has now become the most dangerous.

If you are dealing with an unwanted pregnancy, there are many people who've faced the same crisis. We want to help you in any and every way we can—and not with just a bunch of words. Please don't hesitate to call us. We really love you. Your unborn child is depending on you...
