### Setting it Straight

In a story in Friday's Daily Nebraskan on university program budget cuts made by ASUN, it was inaccurately reported that the Funds Allocation Committee suffered a \$1,500 budget cutback. The decrease was voted down by the senate and the FAC budget remains at \$3,500. Also in that story, it was reported that the Committee for Fees Allocation proposed to give the Daily Nebraskan a budget increase to make up for lost advertising and cover printing costs of adding one extra page of news per issue for the remainder of the semester. That proposal, which was voted down by the senate, was to cover the outlined costs for spring of 1986.

In a story in Friday's issue, ASUN senator-elect Liz Briard's name was excluded from a listing of senators from the College of Arts and Sciences. Briard, a representative from the Change Party, received 276 votes, the second highest from that college.

## Reuter Report

### Abduction of American claimed by Islamic Jihad

BEIRUT, Lebanon — An anonymous telephone caller speaking in the name of the shadowy Islamic Jihad organization claimed responsibility Sunday for kidnapping American journalist Terry Anderson and two Britons in mainly Moslem West Beirut.

He said the Jihad, which means Holy War, was responsible for Saturday's seizure of Anderson, Middle East bureau chief of the Associated Press news agency, and for those of Britons Geoffrey Nash and Brian Levick on Thursday and Friday.

The caller, in messages to international news agencies here, stated no conditions for the release of the three men but said their abductions were part of a campaign to rid Moslem regions in Lebanon of foreign spies.

"We are certain that Islamic Beirut is full of agents from all sides and accordingly we are working day and night to purge our region of any subversive element of the (Israeli Intelligence Agency) Mossad, the (American) Central Intelligence agency or allied intelligence agencies," he added.

The caller issued a "final warning" to foreigners in Beirut against undertaking "subversive activities."

### Embassy sends Americans home

TEGUCIGALPA, Honduras — The U.S. Embassy here has told 14 U.S. citizens fighting alongside Nicaraguan rebels to leave Honduras, embassy sources said Sunday.

The 14 soldiers of fortune, members of the Civilian-Military Assistance group, left Tegucigalpa on a flight to Miami Saturday night, they said.

The Alabama-based CMA is a private group formed mainly by Vietnam veterans that raises funds for Nicaraguan rebels fighting to overthrow Nicaragua's leftist Sandinist National Liberation Front government.

The sources said the 14 men had been fighting for six weeks as deep as 125 miles inside Nicaragua with rebel Misura Indian guerrillas.

Fears one of the group could be killed or captured in Nicaragua providing the Sandinists with propoganda ammunition prompted the embassy to seek their expulsion, the sources said.

### Belgians protest U.S. cruise missile

BRUSSELS, Belgium — Tens of thousands of anti-nuclear demonstrators jammed central Brussels Sunday in cold, blustery weather in a peaceful protest march against the government's acceptance of 16 U.S. cruise nuclear missiles.

Police estimated the crowd at 44,000, but a spokesman for the organizers put it nearer 200,000.

Nuns, children, trade unionists, people in wheelchairs and leather-jacketed youths with spiky orange hair were among the Belgians who took more than three hours to pass the starting point of the 1.55-mile route.

Paul Janssens, secretary of the Flemish Action Committee Against Nuclear Weapons, said the big turnout was a message to parliament that it should throw out the coalition government of Prime Minister Wilfried Martens.

The three-year-old government faces a confidence vote this week on the missiles and on its management of the economy.

### Peres denies 'Iron Fist' policy

WASHINGTON — Israeli Prime Minister Shimon Peres said Sunday Israeli troops would be "mostly out of Lebanon" within eight to 10 weeks. Peres also said he strongly opposed the idea of a joint Jordanian-Palestinian delegation meeting with the United States without Israel being present.

He said his government wanted the Israeli Army to complete its current withdrawal from Lebanon as soon as possible.

Peres denied the army had an "Iron Fist" policy against Shi'ite guerrillas attacking Israeli forces in southern Lebanon. He said the policy was to defend the lives of Israeli soldiers.

He said Israel rejected proposals by Egyptian President Hosni Mubarak and King Hussein of Jordan for a U.S. meeting with a joint Jordanian-Palestinian delegation.

"What would be the purpose of a joint delegation coming to Washington but to create the illusion that Washington will try to impose a solution on Israel?" Peres asked.

He said Israel would be ready to talk directly to a delegation that did not include the Palestine Liberation Organization.

### U.S., Angola discuss S. Africa

PRAIA, Cape Verde — An Angolan government delegation has arrived in the Cape Verde Islands for talks with U.S. officials on bilateral relations and the situation in southern Africa, Cape Verdean officials said Sunday.

Angola was represented by Interior Minister Alexandre Rodrigues who will meet U.S. Assistant Secretary of State for African Affairs Chester Crocker, the official Angolan news agency reported.

It said the talks would focus on the issue of independence for South African-ruled Namibia, which forms part of proposals for a regional peace settlement being discussed between South Africa, the United States and Angola.

### OPEC to review production limits

GENEVA, Switzerland — A special OPEC committee will meet here this week to review the latest efforts to limit production in order to support fragile world oil prices, informed sources said Sunday.

Members of the Ministerial Executive Council, headed by Saudi Arabian Oil Minister Sheikh Ahmed Zaki Yamani, will arrive over the next two days for talks on Tuesday, sources said.

The council, set up during a turbulent Organization of Petroleum Export Countries meeting in December, oversees the work of the cartel's so-called production police, a team of independent auditors.
