

UNL recreation office plans biking, fishing and backpacking vacations

By Brian Keenan
Staff Reporter

Looking forward to another uneventful summer of boring work? Wish you could get into the great outdoors and do some hiking, fishing or backpacking? You can do all this and more through the Office of Campus Recreation this summer.

A preview of the trips was given last Thursday in the Nebraska Union. The program included a slide show of events, equipment displays and talks with the trip leaders.

"This is a new program to acquaint students with what we do in the summer in the outdoor trip program," said Mark Ebel, assistant director of the Office of Campus Recreation.

The show introduced a trip to Alaska. This 23-day trip will include hiking, river rafting, fishing and sea kayaking.

"This trip, however, is designed and

open for beginners," Ebel said. "You don't have to know how to do these things. This is a learn-by-doing trip."

Local people will serve as guides on the trip, which is co-sponsored by Alaska Pacific University. The cost is under \$1,500, with a 40 percent to 50 percent savings for a trip like this. Round-trip airfare is included.

"We're offering it because there have been lots of requests," Ebel said. "Anyone in good physical condition can do it and should enjoy it."

If you can't afford Alaska, the department is offering many other trips at reasonable prices.

Two trips leaving at the end of finals week are white-water canoeing on the San Juan River and a bike tour of the Great Lakes starting in Door County, Wis. The bike trip has been filled, but there were still seven openings left last week for the San Juan trip.

"I would encourage people to sign up right away because the trips fill up

fast. There are a limited number of openings, and it is first come first served," Ebel said. "All summer trips are open for registration now."

Students also could take a wilderness trip to Northern Colorado this summer. This week-long trip will include white-water rafting, canoeing, trout fishing, mountain hiking and technical rock climbing. Ebel said he hopes this trip will show people how to enjoy the outdoors.

Other trips include another bike trip to Wisconsin, canoeing on Nebraska rivers and rock-climbing sessions in South Dakota. An outdoor leadership seminar is scheduled in August.

If these trips sound too strenuous, the department also is offering a more leisurely trip to Taos in Santa Fe, N.M. The trip includes outdoor recreation and some cultural activities, Ebel said.

To sign up for trips or for more information, contact the Office of Campus Recreation.

As A Navy Pilot, The Sky's Your Only Limit.

Nothing else comes close to the excitement of Navy flying. And no other job gives the same early leadership opportunities and management responsibility.

As an officer and pilot in the U.S. Navy, you get immediate decision-making authority as well as the practical experience and technical training you need to make your career take off.

It starts with Navy flight training which includes state-of-the-art navigation, aerodynamics, and computer know-how. It goes on to be one of the most rewarding careers you can choose.

Those rewards include good pay, over \$30,000 after only four years, and generous benefits: 30 days' paid vacation earned each year, medical and dental care, low-cost life insurance coverage, and many other tax-free allowances.

To qualify, you must have a BS or BA, be no older than 28, pass physical and aptitude exams, qualify for security clearance and be a U.S. citizen.

Housing...

Continued from Page 1

University housing also will supply more guaranteed single rooms for students who want extra privacy.

Glen Schumann, assistant director of housing for maintenance operation, said some buildings will have repairs or other changes made before fall. The following is a list of these changes.

- **CITY CAMPUS**
Sandoz: Two floors will be recarpeted.
Selleck: Some outside windows will be replaced, and a bathroom will be added in the 6000 building.
General: Six lounges in Abel-Sandoz and Harper-Schramm-Smith complexes will be remodeled. Maintenance crews also will install a high-rise safety smoke damper system, designed to keep smoke from traveling from floor to floor through air-conditioning or heating systems. Maintenance crews also will replace thermostats and continue to implement other conservation measures.

- **EAST CAMPUS**
Burr-Fedde: Window trimming will be repainted and a ceiling will be replaced in Burr.

Love Memorial Cooperative for Women: Two bathrooms will be installed. The office of university housing will send out its first information newsletter in mid-summer to all students who have housing contracts. The mailing will include information on new residence hall conditions and advice on what to expect from residence hall life.
