FACTS

- ELEVATION — 1,167 feet above sea level
- POPULATION — 1992 census: 177,340
- HISTORY — Lincoln, once known as Lancaster, was founded in 1859. In 1864 the town was designated as the Lancaster County seat and, in 1867, as Nebraska's state capital. Its growth from a small village to a modern city has been sure and steady down through the years. Abundant agricultural production, manufacturing, finance, retail and wholesale trade, governmental activities and educational institutions have all contributed to make Lincoln the fine city it is today. Lincoln was designated an "All American City" in 1978.
- GOVERNMENT — Lincoln has a Mayor-Council form of Government with an elected chief executive known as Mayor and an elected legislative body known as the Council composed of seven members. The administration of city business is performed under the direction of the mayor by eleven directors appointed by the mayor and approved by the council.
