FINE QUALITY DIAMONDS.

A CUT ABOVE THE REST.

Diamonds of fine quality have a sparkle all their own. The more perfectly and precisely the facets are cut on a diamond, the greater the amount of light that passes through it. And the more brilliant the results. But cut is just one of the things to look for when select ing a diamond.

The quality of a diamond also depends on its Color, Clarity and Carat-weight. Together, they're known as the 4C's, the important characteristics that give a diamond its value and rare beauty. And to understand each of the 4C's is to understand the difference between

Color refers to the different gradations from exceptional white to yellowish. Clarity is the degree to which a diamond is free of interior and exterior flaws. Finally, there is Carat-weight, the size of

Fine quality diamonds simply look better. Let us show you our wide selection of fine quality diamond jewelry in settings designed to enhance the diamond. You'll discover the difference quality makes.
