Young men in the British military undergo the toughest training of any fighting men anywhere in the world. Those who survive that test have a chance at becoming one of the best there is, one of Britain's TOP GUNS.

**Thursdays at 7 p.m. on the Nebraska ETV Network**, the series TOPGUNS looks inside England's famous fighting men and reveals their hopes, passions, fears... and the battles they go through before they go through the real battles.

This series tells the stories of the fighter pilots, the submariners, the paratroopers, the Royal Marines and the sailors in close-ups of young men pushed to their physical and mental limits, struggling to win coveted positions in Britain's space age armed forces.

**BLAKE'S 7**, a new science fiction adventure series featuring a resistance group battling for survival against a totalitarian super power and set against the limitless background of interplanetary space is shown on **Nebraska ETV Network Fridays at 10:30 p.m.**

Controversial and outspoken Nebraska State Senator Ernie Chambers, District 11, Omaha, is this week's guest on **DATELINE NEBRASKA, Sunday, Jan. 18 at 7 p.m. on the Nebraska ETV Network.**

It's a long way from Renaissance France to the modern-day American Midwest, but Lincoln, Nebraska organ builder Gene R. Bedient travels that path when the Nebraska ETV special, **"The Wind at One's Fingertips"** airs Sunday, Jan. 18 at 3 p.m. The 60-minute special follows the creation of the first authentic French classic-style pipe organ in the United States.

Motion pictures, television and literature have given cattle ranching in the America West a proud national image — a limitless frontier, hearty cowboys and the strong independent rancher whose word is his bond.

Today, many people, including ranchers themselves, accept the stereotypes of being independent minded, outspoken and individualistic. Because of this, just as with the troubled American farmer, it's often difficult for the plight of the contemporary rancher to be fully realized and appreciated by urban society.

A look at today's ranchers and the various changes they feel compelled to make in order to survive is the focus of **"BACK AT THE RANCH," Tuesday, Jan. 20 at 9 p.m. on the Nebraska ETV Network.**

A client tells his lawyer he has murdered two missing girls. Should the lawyer tell the police and the anguished parents, or keep the murders confidential?

This is a real life case from **"ETHICS ON TRIAL,"** a documentary on lawyers' ethics airing **Wednesday, Jan. 21 at 9 p.m. on the Nebraska ETV Network.**

The program looks at America's love-hate relationship with its lawyers; at why most people trust their own but rank the legal profession at-large near the bottom of the barrel; at why the public often regards what is legally "ethical" as morally appalling; and whether this is due to public ignorance or our system of justice or to ethical codes that serve the interests of the legal profession at the public's expense.
