

1987 Summer Reading Course Program

Earn college credit over the summer months --
take a Summer Reading Course!

Spring Meetings -- April 6-17

Through the Summer Reading Course Program students can earn college credit over the summer months. To participate in the Summer Reading Program:

- * Attend a spring orientation meeting of the course(s) in which you are interested. Meet the instructor and receive a course syllabus.
- * Register for the course(s) you wish to study during the summer. Enrollment is limited to 35. Registration begins April 20 and ends May 8.
- * Study independently over the summer.
- * Attend the fall meetings (scheduled September 7-11) and complete the course work in September by fulfilling the requirements specified by your instructor. Grades will be recorded in October.

Guidelines for Approval

- * Discuss your course selection with your advisor so you will be sure it fits into your degree program. For example: Arts & Sciences' students have a limit of 30 hours of Summer Reading and correspondence hours that will apply toward a degree. Architecture students need written approval to register for a Summer Reading Course. Check your college's requirements before registering for a Summer Reading Course.
- * Only two reading courses can be taken in one summer. Any exception will require the written approval of your advisor and/or the dean of your college.
- * In residence requirement: Courses with an "x" suffix do not qualify as resident credit. Summer Reading Course hours will not count toward the requirement that "at least 30 of the last 36 hours of credit needed for the degree must be registered for and completed in residence."
