### Run!

Nebraska quarterback Jerry Dunlap looks for running room during Nebraska's intrasquad scrimmage last Saturday at Memorial Stadium. Dunlap and other reserve Cornhusker signal-callers may see more playing time in Saturday's annual Red-White Spring Game if injuries to Steve Taylor and Clete Blakeman, Nebraska's top two quarterbacks, keep them from participating.

## Seko wins 91st Boston Marathon

By The Associated Press

BOSTON — A Boston Marathon touted for its magnificent men's field will

likely be remembered for its mishaps and mediocrity.

The defending champion fell during the botched start. The winner pulled away with surprising ease. The pace was unexpectedly slow. A crash marred the wheelchair competition.

On a gloomy day in which 6,313 official entrants ran under drizzly skies and into a moderate wind that slowed them, Toshihiko Seko of Japan covered the final six miles unchallenged Monday to win the 91st Boston race in 2 hours, 11 minutes, 50 seconds.

"Up to 20 miles, I thought the pace was slow," Seko said through an interpreter. "I looked at other people's

paces. If I started there, I didn't think they could follow me."

So Seko, who won the 1981 Boston Marathon, spurred out in front and none of the challengers could keep up for the rest of the 26-mile, 385-yard race.

Not Steve Jones, the top-ranked marathoner in 1985. Not Juma Ikangaa or defending champion Rob de Castella, the world's first- and second-rated runners. Not two-time Boston winner Geoff Smith.

"He just ran away from us," said Jones, the runner-up in the tenth-fastest Boston run. "There was nothing we could do about it at all."

# What independent suspension does for your BMW, Kaepa does for your foot.

If you look at the photo closely, you'll see that the Kaepa shoe's upper is actually two independently moving parts. Each part is secured to your foot by a separate lace.

This solves the problem of conventional athletic shoes, which may fit perfectly when you're standing still, but distort when your foot flexes, pinching down at the top of your foot and bulging out at the heel.

When you move your foot, Kaepa's two parts move like a body joint, smoothly mimicking your foot's flexing action.

The result is quicker, easier, more precise footwork. And comfort that doesn't stop when you start moving.

Kaepa makes shoes for tennis, aerobics, fitness, and basketball.

So whatever your sport is, there's a Kaepa that'll give you a \$30,000 ride.
