

Now there's more than one way to get through college.

To get ahead in college, it helps if you choose a brilliant roommate. Like a Macintosh™ personal computer. And now there are two models to choose from.

The Macintosh Plus, which comes with one 800K disk drive and a full megabyte of memory (expandable to four).

And the new Macintosh SE. Which

comes with either two built-in 800K drives, or one drive and an internal 20-megabyte hard disk. As well as a choice of two new keyboards.

Inside, the SE also has an expansion slot, so you can add a card that lets you share information over a campus-wide network. Or another card that

lets you run MS-DOS programs.

Whichever Macintosh you choose, you can use the latest, most advanced software. And that means you'll be able to work faster, better and smarter.

No two ways about it.

The power to be your best.
