

# Group to debut at Duffy's

From Staff Reports

Fourwaycross, a Californian quartet, will be making its Nebraska debut tonight at Duffy's Tavern, 1412 O St.

Considered one of the top new music bands in the Los Angeles area, Fourwaycross combines deft lyrics with driving sound.

## band PREVIEW

The band's three albums and an EP can be broken down into two periods. The first two releases were done with the original lineup of Tom Dolan, Courtney Davies, Steve Gerdes and Biff Sanders. These two releases were more atmospheric in nature with Dolan handling the vocals.

Following the release of their second LP, Dolan left and was replaced by Beth Thompson, whose vocals on the critically acclaimed third LP "Home" brought a drastic change within the band.

While the first two albums were more of the heavier sounding Tangerine Dream/Faust/Kraftwerk variety, Thompson's vocals brought a shimmering icy glaze to the harsh realities of the music, making for a delightful intertwining of sound.

Their first cassette was recently released on LP by Nate Starkman/Fundamental. Fourwaycross most recent release is the EP "Shimmer."

Opening will be Stahlversion and Bayfish, formerly Playground. The concert begins at 9 p.m.

**Buy your course packets from Astro's NOW...and we'll buy them back LATER!**

Don't leave your money all tied up. When you're finished with your course packets, bring them back to Astro's and we'll buy them back. We know how important these packets are to you, but we also know how important money is to you. That's why Astro's is the only copy center to buy them back! Astro's Copy Center is the only place to go for your course packets and all your copying needs.

## Non-smoking travel minded roommate seeks same for fun and adventure.

This semester, move in with a Macintosh<sup>™</sup> personal computer. For starters, it's incredibly light and compact. So you can take it places.

But more importantly, Macintosh can take you places. From Biology 101 to advanced physics. From beginning French to the Italian Renaissance. From an average student to a Magna Cum Laude.

The point being, Macintosh helps students

work smarter, quicker and more creatively.

And the beauty of Macintosh is, you don't have to know diddley about computers to use one.

So look at it this way. If you're going to have a roommate this year, why not have one willing to help you with your homework?

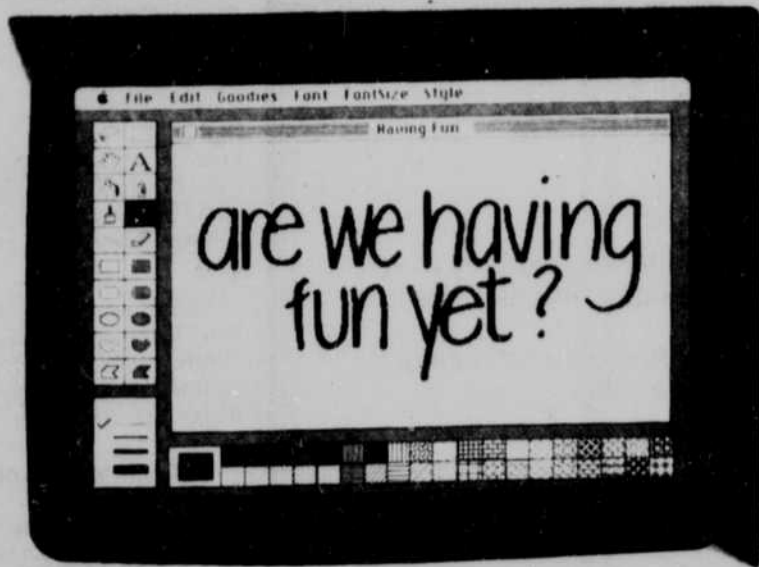

The power to be your best.
