

Bus shelter bill to be studied

By Chris Carroll
Staff Reporter

The need for an additional bus shelter on city campus and east campus, will be studied by the Campus Life Committee if a bill directing the committee to do so is passed by the Association of Students of the University of Nebraska Wednesday night, said ASUN President Jeff Petersen.

Petersen said students have indicated that a shelter is needed at Lyman Hall, where students on city campus make a connection to east campus, and also near the Barkley Memorial Center in the southeast corner of east campus.

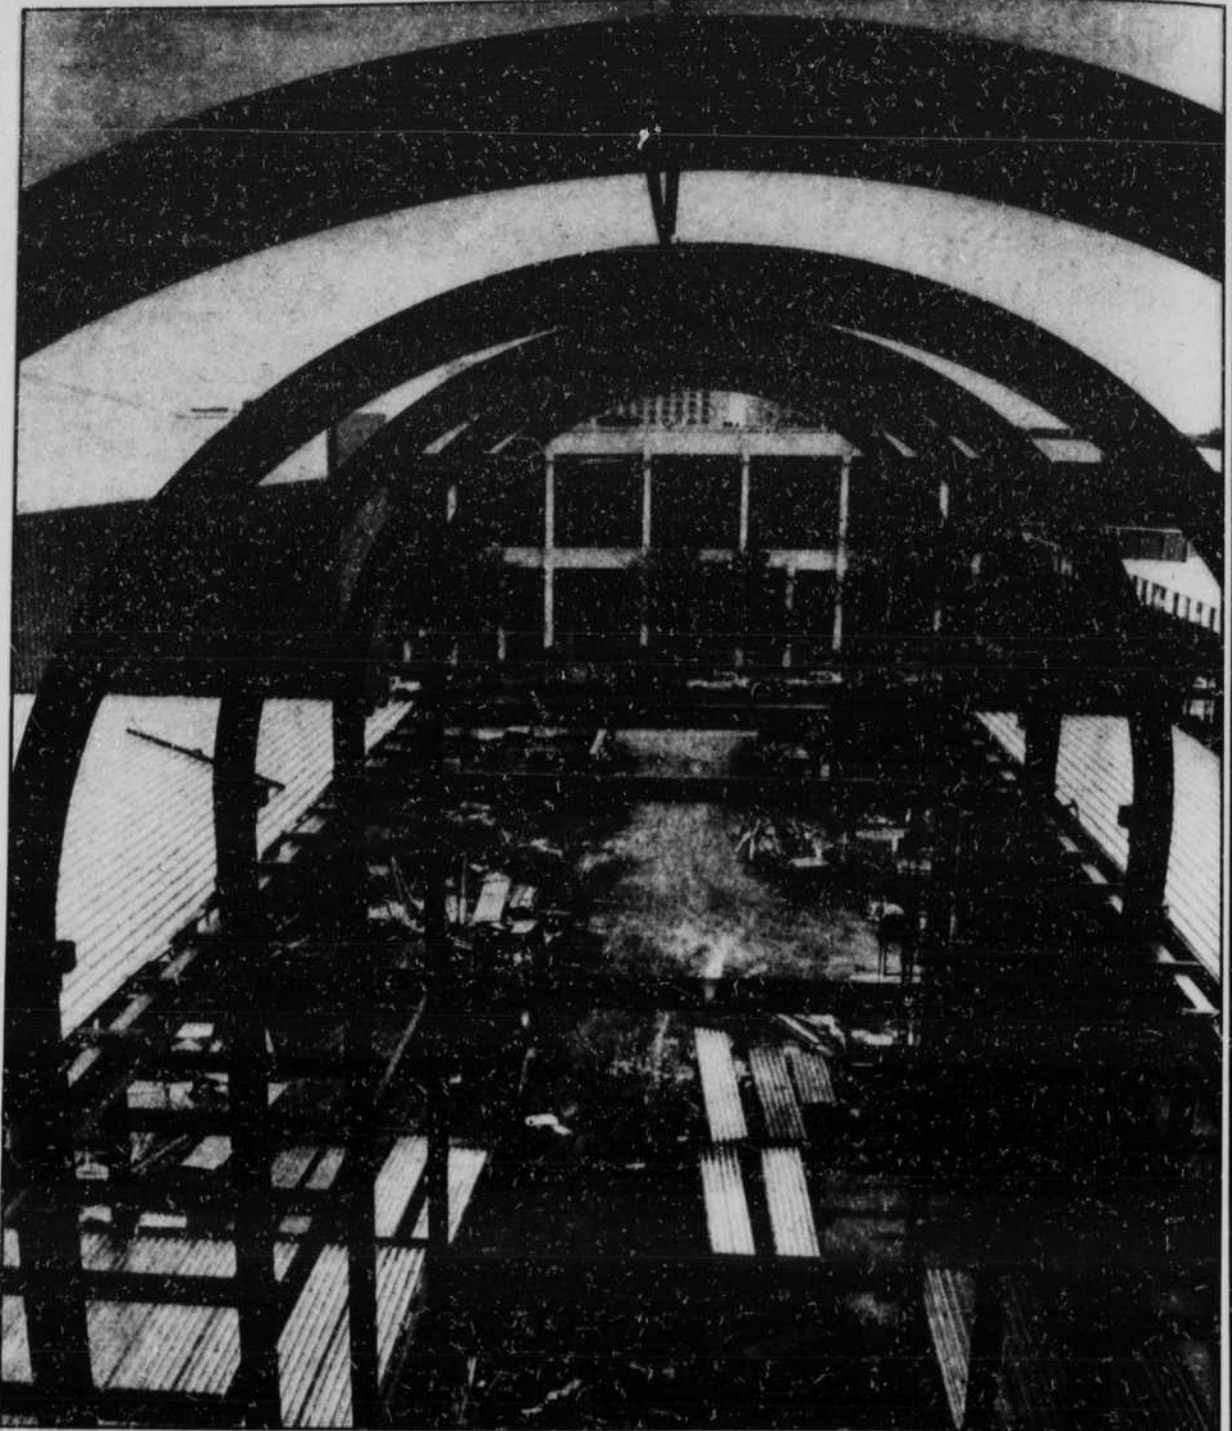

Another bill, setting in motion the creation of a test file in Love Library,

accessible to all students, will be officially presented as a bill Wednesday night. The proposed test file was previously discussed by senators.

The senate also will consider delegating the Campus Life Committee to look at the advantages and disadvantages of conducting Residence Hall Association elections in conjunction with ASUN elections.

Petersen said RHA elects senators and a president to represent the interests of the residence halls. Residents in the halls would be the only individuals voting on RHA offices, Petersen said.

He said ASUN can suggest what to do regarding a joint election, but the electoral commission will make the final decision.

The curved beams will support a glass atrium in the Campus Recreation Athletic Facility. The picture was taken from the top floor of the NU Coliseum.

Campus recreation construction progressing

By David Holloway
Senior Reporter

The second of three phases in the construction of the new Campus

Recreation Athletic Facility is 60 percent finished, said Del Busacker, construction engineer at the University of Nebraska-Lincoln.

Busacker said the second phase consists of a weight room facility, an all-purpose room and several offices on the first level. He said volleyball courts and a suspended track also are included in Phase Two.

will be on each level. "The existing basketball floor of the Coliseum has been refinished and is now in use," Busacker said. "We have also added two new tennis courts and sports fields which were part of the second phase."

Bob Carpenter, architect for planning and design, said Phase 1A was the Cook Pavilion which was dedicated last fall.

"We are now working on Phases 1B and Two," Carpenter said. "Phase Three will be the remodeling of the Coliseum itself."

Carpenter said the budget for the center has been "right on target." He said the proposal for the third phase soon will be presented to the NU Board of Regents for approval.

Phase 1B and Two are expected to be completed some time in June, Busacker said.

Facilities in the Coliseum and the Cook Pavilion are now open for student use, Carpenter said.
