# Get your hands on a Macintosh before your hands are full.

Homework has a nasty way of piling up, doesn't it? One day, you feel on top of it all—the next, you're behind on your notes, your research, your term paper.

Our advice: Get in front of a Macintosh® computer.

True, it may not turn a lifelong procrastinator into an overachiever. But it will make an enormous difference in how quickly you can write, rewrite, and print your assignments.

Not only will a Macintosh change

the way you look at homework, it'll change the way your homework looks—with an endless variety of type styles and graphics that'll make your professors think you bribed a friend in art school.

And as for all those classroom scribbles,

research notes, and assorted scraps of paper that litter your desk, we give you HyperCard®—an amazing new program that provides an easy way to store, organize, and cross-reference each and every bit of information. (HyperCard is included free with every Macintosh.)

So come in and get your hands on a Macintosh today.

Before your homework slips completely through your fingers.

The power to be your best.™
