

Non-smoking travel minded roommate seeks same for fun and adventure.

This semester, move in with a Macintosh™ personal computer. For starters, it's incredibly light and compact. So you can take it places.

But more importantly, Macintosh can take *you* places. From Biology 101 to advanced physics. From beginning French to the Italian Renaissance. From an average student to a Magna Cum Laude.

The point being, Macintosh helps students

work smarter, quicker and more creatively.

And the beauty of Macintosh is, you don't have to know diddley about computers to use one.

So look at it this way. If you're going to have a roommate this year, why not have one willing to help you with your homework?

 The power to be your best.™
