

Connie Sheehan/ Daily Nebraskan

Sailors cash a check for some extra weekend spending money in a check-cashing location common to the Chicago area.

# CHICAGO

Chicago is approximately nine hours from Lincoln by interstate. Once in the city, be sure to have a map handy and an idea of what direction you're going, it's an easy city to get lost in.

If you want to avoid traffic, the "el" is an ideal form of transportation. For only a dollar and a few minutes ride, you can go almost anywhere in the city -- downtown or throughout.

Besides the el, parking in a garage or lot and walking is the next best way of getting around. On foot you can admire the architecture better and go window shopping if you happen to have a limited travel budget. The "Magnificent Mile" is ideal for window shopping with shops such as Chanel, Saks Fifth Avenue, Tiffany & Co. and an assortment of stores we only dream we can shop in.
