UFO researchers uncover evidence of U. S. Government's cover-up

The United States Government has had knowledge of alien life forms for more than 40 years, according to a Lincoln UFO researcher.

Brian Williams, who has been studying UFO sightings and other unexplained phenomena since 1972, believes that a "government within the government" also is trading human lives in exchange for advanced technology from extrater-

restrials.

William's beliefs are supported by a Las Vegas television station's cover story about UFOs that aired last November. The reports, gathered by KLAS newsman George Knapp, suggest that military testing of alien spacecraft is occurring on government land in the remote area of Nevada desert west of Las Vegas known as "Area 51."

The two-hour report, entitled "UFO's: The Best Evidence," examines formerly classified government documents that have been released

to the public under the Freedom of Information Act. The documents largely have been "blacked out," but do reveal that, at least for a time, government agencies were assigned to investigate UFO sightings.

In his investigative report, Knapp talked to a man who claimed to have worked at another military test sight adjacent to "Area 51." Robert Lazar, a scientist who said he was part of a research group that

UFO lecture scheduled

Is the government concealing information about contact with extraterrestrials? Does the government know more about the UFOs than they admit? These and other questions will be addressed in the lecture "UFOs: Government cover-up and the absolute truth!" The lecture, part of the University Program Coun-

cil free university program, will be given from 7 to 9 p.m. tonight in the Nebraska Union Centennial Ballroom. The speaker, Ray Boeche, is a founding member of the Fortean Research Center, a local organization dedicated to exploring unexplained phenomena.
