Get a grip on your homework.

Homework has a nasty way of piling up, doesn't it? One day, you feel on top of it all—the next, you're behind on your notes, your research, your term paper.

Our advice: Get in front of a Macintosh\* computer.

True, it may not turn a lifelong procrastinator into an overachiever. But it will make an enormous difference in how quickly you can write, rewrite, and print your assignments.

Not only will a Macintosh change the way you look at homework, it'll change the way your homework looks—with an endless variety of type styles, and graphics that'll make your professors think you bribed a friend in art school.

And as for all those classroom scribbles, research notes, and assorted scraps of paper that litter your desk, we give you HyperCard™—an amazing new program that provides an easy way to store, organize, and cross-reference each

and every bit of information. (HyperCard is included free with every Macintosh.)

Macintosh is so easy to learn, you can master it in just an evening.

So come in and get your hands on a Macintosh today.

Before your homework slips completely through your fingers.

The power to be your best.™
