# ANNOUNCING TWO NEW CREF FUNDS BORN OF A SINGLE THOUGHT

©1990 TIAA-CREF

At TIAA-CREF, everything we do is with one thought in mind—making sure that you and your family have a future that's comfortable, rewarding, and secure.

Now you have more ways than ever to build that future. We're very pleased to introduce two new CREF funds—the Bond Market and Social Choice Accounts. The new accounts give you more opportunities to diversify and actively manage your retirement savings—something many of our participants have been asking for.

The new accounts are available for your University of Nebraska CREF Retirement Annuities and Supplemental Retirement Annuities.

### CHOOSE THE BOND MARKET ACCOUNT FOR DIVERSIFICATION

If you think bonds are a good investment for your retirement savings, consider CREF's Bond Market Account. Over time, bonds have experienced less volatility than common stocks, while paying better returns than money market instruments.

The Account invests primarily in high- and medium-quality bonds issued by public corporations and in U.S. government bonds. It also invests in other types of securities, including mortgage-backed and money market instruments.

### OR CHOOSE THE SOCIAL CHOICE ACCOUNT

TIAA-CREF has always been concerned with socially responsible investing—and now we've taken this concern one step further. CREF's Social Choice Account invests only in companies that follow certain standards of corporate conduct.

If you want to use the Account for all of your retirement savings, you'll find its investment mix—a balanced portfolio of stocks, bonds, and money market instruments—may give you all the diversification you need.

### SECURITY, GROWTH, DIVERSITY—THE CORE OF THE TIAA-CREF SYSTEM

TIAA's traditional annuity, together with CREF's Stock and Money Market Accounts, provide the security, diversification, earnings potential, and balance that most people need and want for their retirement savings.

The TIAA annuity gives you the maximum security, guaranteeing your principal and a specified interest rate. TIAA also provides the opportunity for growth through dividends—which we've credited every year for over 40 years.

The CREF Stock Account has a history of strong, long-term growth. It holds domestic stocks tied closely to the U.S. stock market, international investments, and stocks chosen specifically for their growth potential. The Account has outperformed the S&P 500 Index and mutual fund industry averages for the last 5- and 10-year periods.\*

CREF's Money Market Account offers you additional flexibility. Excellent returns have enabled the Account to outperform the industry average since May 1988.\*\*

### A COMMITMENT YOU CAN RELY ON

With the same long-term perspective as TIAA and the CREF Stock and Money Market Accounts, the new accounts are managed by investment experts who understand the strategies of sound retirement planning. So you can feel confident that each investment meets CREF's strict criteria for risk and long-term growth potential.

Plus, you can rely on TIAA-CREF to provide you with the information you need, when you need it. Our retirement planning specialists are just a toll-free phone call away. And of course, we'll continue to keep you up-to-date through our quarterly and annual reports, newsletters, and a host of other informative publications.

### CALL FOR OUR FREE BROCHURE

Our free brochure describes the new accounts in greater detail. For your copy, call us toll free at
