Students use the Innovative Research Information System computerized card catalog, instead of the standard system of files, to locate books in Love Library. Approximately 50 terminals throughout the 12 library branches are available for public use.

## Libraries continue computer installation

By Kara Wells  
Staff Reporter

The installation of a computerized card catalog system continues at the University of Nebraska-Lincoln li-

brary system, but Anita Cook, coordinator of automated systems at Love Library, said automation won't be completed for about two to three years.

Currently, Cook said, about 60 percent of the card catalog has been

entered into the computer system. By December, she said, about 80 percent of the catalog will be computerized. Because the complete card cata-

# Earn more A's, Get more Zzzz's.

As you've probably learned, staying on top of classwork takes a lot of work. So we're offering two great study aids: the Macintosh® SE and the Macintosh Plus.

Use a Macintosh to transcribe your notes, crank out that spreadsheet, polish off statistics, and polish up that

English paper. What's more, once you've mastered one application you can master them all, because every Macintosh software applica-

tion works the same way. And since every Macintosh runs the same powerful software and is expandable, it can grow with you as your

needs change.

If you'd like to know more, stop by the location listed below. You'll gain everything from A's to Zzzz's.
