Look what happened while you were gone...

Announcing new special student prices on the Macintosh Plus, Macintosh SE and Macintosh SE/30.

If you'd like to enhance your education, take note. While you were gone, new special student prices were announced on three powerful members in our Macintosh family, the Macintosh Plus, the Macintosh SE and the Macintosh SE/30.

They'll put a world of possibilities at your fingertips. Like graphing the economic impact of Japanese expansionism. Analyzing Freud. Or just organizing that stack of notes.

Better yet, once you've mastered one application you can use them all, because all Macintosh software works the same way. And since every Macintosh runs the same software and is expandable, it can grow with you as your needs change. Considering all this, you should have no doubts about which course to take. Give Macintosh a try.

The power to be your best.
