doors and we don't really run a lot of people off," Fowler said.

"If they (Polygram) can get people

to come to our shows we can usually keep them there unless it's just so loud they have to leave."

Fowler said the band is loud. And that level actually complements the music, which Fowler described as hard folk rock. But that category is

not set in stone, nor is it pre-conceived.

"We rock as hard as any band out there, but our songs are folk-oriented," Fowler said. "We don't try to do anything because that would be unnatural. It just kind of comes out."

What is down the road for the band

doesn't much concern Fowler. He is interested in the here and now.

"We're just doing it and it seems to be working. And we are working at it," he said.

"We haven't reached our peak. Everything is going really good. People are starting to take notice. We've got

a full road crew. How far up we're going to go, I don't know."

Slightly contradicting himself by looking ahead, Fowler said to expect a different album format for the band's next release.

"Kevin says our next record will be more psychedelic," Fowler said.

Joslyn

"One of the problems is now . . . they simply want cash on the barrel head. If you want to do business with them, they'll work with you if you give them 'X' number of tens of thousands of dollars. That's how you open the dialogue. Or you . . . arrange for a large number of computers to go there."

Beal has dealt with Russian collections before, in his previous exhibition of contemporary collections of Russian art.

Through Beal's contacts with Intercultura and the Russian ministry of culture, he decided to try to get an exhibition of 19th century Russian art, forgetting that the Wanderers was already commissioned to come to Dallas.

With the help of Intercultura, Beal's

proposal gained the inclusion of the Joslyn in the Wanderers exhibit originally intended only for Dallas.

"It was a combination of my contacts and political influence from my board members," Beal said.

Since then, Beal has been invited by the ministry of culture to submit further proposals for Russian exhibitions.

"But I'm not quite sure how open that situation is going to be for much

longer," he said. "I think we all had a window of opportunity and I think we may see it changing a little bit. Everything seemed to be continuing to open and open . . . They wanted the contact. But now everyone is much more looking out for themselves."

This makes the Wanderers exhibit even more special. The landmark social statement of these 19th century painters opened new venues for art, not only in Russia, but throughout the

world.

For such an exhibit to enter the United States for the first time, allowing Western culture to peer into a rarely opened Russian window of culture, is a treat.
