

Capable. Affordable. Adaptable. Affordable. Transportable. Affordable.

The Macintosh Classic

When it comes to increasing productivity at an economical price, there's no tool that's more able.

Meet the Macintosh® Classic® computer. It's the most affordable Macintosh, yet it can handle a variety of basic home, office and classroom applications, such as word processing and spreadsheet analysis.

The Classic is a complete Macintosh. Its monitor, keyboard, mouse and system software are all included, as are extras you might not expect - such as the ability to network and the Apple® SuperDrive disk drive, which lets the Classic read from and write to MS-DOS, OS/2 and ProDOS® files.

The Classic can easily go where you need to go, when you need to go there. Its integrated design, light weight and built-in carrying handle are ideal for a person on the move.

So come in and see a demonstration. And see new value in personal computing that couldn't be more respectable. Or affordable.

Available.
