

Software Test Engineers

Be immortalized.

We all leave our legacy.

Sure, you could settle for bronzed baby shoes...but we suspect you aspire to something more profound.

Microsoft lets you do work with enduring results. From day one, we give you room to grow and contribute. With no obstacles. No buttoned-down mentality.

Here we back our Software Test Engineers with the latest technological advances. Hot new technologies like advanced portable operating systems. Object-oriented technology. Handwriting recognition and multimedia. With

advanced operating systems and integrated applications.

That's how great programs like Windows, Excel and Word were perfected. The personal computer software products of tomorrow will be your baby.

If you're a candidate for a BA/BS degree in Computer Science, Math, Physics or a related discipline, then come talk with us at our Technical Career Day. We look forward to nurturing your ambition.

We are an equal opportunity employer and are working toward a more culturally diverse workplace.

Microsoft®
