

**Software Test Engineers
Full-time and Summer Positions**

Where else?

The towering, snow-covered peaks of the Cascade Mountains never fail to impress you on your daily commute to the world's leading software company.

And, this weekend, it's good to know you can take your pick of cosmopolitan nightlife, deep sea fishing, or maybe kayaking through white water rapids.

Where else could you be but in Seattle? And where else would you be working but at Microsoft?

Here, housing is plentiful, the people are genuinely friendly, and the standard of living is exceptionally high.

Fine arts, exquisite dining, professional sports, spectacular outdoor recreation...the choices are virtually endless.

Best of all is the work. Nobody in the software industry can match Microsoft's unique professional environment, industry accomplishments, or plans for the future.

See. Life in the real world isn't so bad after all...now that you're at Microsoft, that is.

If you are a Spring, 1992 graduate or are pursuing a Bachelor's or Master's degree in Computer Science, Electrical Engineering, Math, Physics or a related discipline, and would like to learn more about Software Test Engineering in Seattle, we'd like to talk with you at our On-campus Interviews.

We are an equal opportunity employer and are working toward a more culturally diverse workplace.
