Chemistry 101.

kem' is - tri, n. 1) The science dealing with the composition and properties of substances and with the reactions of the female gender to romantic notions and symbols of everlasting love.

Consider these facts:

- a) Borsheim's has the nation's largest collection of diamonds and diamond engagement rings under one roof.
- b) That roof is not too far from here.
- c) Whether you spend \$500, or \$5,000, you'll get more at Borsheim's than anywhere else.

If you're only planning to marry her once, her ring should be the best it can be. It should come from Borsheim's.
