Walk to city campus

Spotless one bedroom, heat paid. Cherry Hill Realty 489-4857.

WORK SMARTER. NOT HARDER.

Engineering student? Smart.
Math or science major? Also smart.

On tests, you probably run equations over again to make sure they're right. So you're working harder.

You don't have to do that anymore. Not when you use the TI-68 Advanced Scientific or TI-85 Graphics Calculator, with their last equation replay feature — and many other smart functions.

We've spent years with students like you

and educators like your professors to develop the TI-68 and the TI-85. That's why they're so highly recommended.

For engineering students, the TI-68 solves up to five simultaneous equations, has complex number functions and offers formula programming.

The TI-85 builds on the power of the TI-68 by adding a wide range of graphing capabilities. Math students can handle calculus problems more easily. And technical students can see the functions for a better understanding of problems. The TI-85 also handles

complex numbers. Matrices. Vectors. Lists. Strings. Plus, it offers a powerful one-equation SOLVER.

Try a TI-68 or TI-85 at your local TI retailer today. And start working smarter. Instead of harder.
