# Genesis' musical gems sparkle on first live album in a decade

## Reviews

**"Genesis Live: The Way We Walk"**  
Genesis  
Atlantic Records

Since the current lineup of Genesis fell into place in 1976, the band has slowly built up a following, moving from cult status to mainstream, without changing their style drastically. Solo efforts by Phil Collins, Tony Banks and Mike Rutherford also have proved to be critical and commercial successes.

Best of all, anyone who has seen their work on video knows these guys are having fun at what they do. Their current get-up—shades, the

halting walk in "I Can't Dance"—is a refreshing break from some artists who take themselves too seriously.

Even when they approach serious topics in their music, they do it with tongue planted firmly in cheek.

"Genesis Live: The Way We Walk" was recorded on the band's 1992 United Kingdom Tour, and is the first live Genesis album since 1982's "Three Sides Live."

It contains such past gems as "Land of Confusion," "Mama," "Jesus He Knows Me," "That's All," "Invisible Touch" and "Tonight, Tonight, Tonight."

The great thing about the tracks is that they sound pretty much like the studio versions, with enough variation to make them worth listening to.

No extended, annoying drum or

guitar solos here. It's team effort all the way.

The only thing that is missing is the famed light and stage show, but the liner notes have full-color photos of the awesome effects, so listeners can use their imaginations.

"The Way We Walk" is subtitled "Volume One: The Shorts."

Genesis plans a companion release in January entitled "The Longs" compiled from the same tour.

One warning: Volume Two will be available for a limited time only, so be on the lookout and act quickly if you find that one dose of live Genesis isn't enough.
