## Joel

Continued from Page 9

The opening cut, "No Man's Land," which comes with few strings attached, attests to Joel's smooth song-writing ability. It is certainly one of the strongest tunes on the album, and the words hint at the nonconformist behind the lyrics who once turned his thumbs down and nose up at Columbia records when asked to redo "Piano Man."

Another track, "Two Thousand Years," is a longshot to make the Billboard charts because of its spiritual content. Yet, it's a good song, focusing on Joel's vocals without the amplification of an orchestra.

Joel turned from classical piano arrangements to keyboard boogies long before his first musical break in 1972 when the soulful "Captain Jack" hit the streets.

Twenty-one years later, Joel is still at the keyboards, with numerous radio hits to his name, such as "Big

Shot" and "My Life." His hit list now includes the title track from "River of Dreams," one of the album's few high-caliber songs.

The album exhibits a sweet mesh of sentimentality, telling of human relationships. "All About Soul" embraces the bond between two people and "Lullaby (Goodnight, My Angel)" addresses parental feelings.

"Famous Last Words" may leave some listeners spinning their wheels in bewilderment, but "Shades of Grey" successfully communicates the mood of a once defiant rocker.

"Some things were perfectly clear, seen with the vision of youth/No doubts and nothing to fear, I claimed the corner on truth/These days it's harder to say I know what I'm fighting for/My faith is falling away/I'm not that sure anymore. ..."

With Joel, some things are perfectly clear, but it's hard to be sure of the vision of "River of Dreams."
