## CU Buffaloes looking to avenge last year's loss

By Jeff Griesch  
Senior Reporter

Two of Colorado's most dangerous offensive weapons will be looking for revenge against Nebraska on Saturday.

Wide receivers Charles Johnson and Michael Westbrook said the memory of Nebraska's 52-7 win last season in Lincoln was motivating Colorado.

Last season, Johnson caught 57 passes for 1,149 yards, and Westbrook had 76 receptions for 1,060 yards, but the two combined for only five catches and 83 yards against the Cornhuskers.

"They embarrassed and humiliated us on national television last year," Johnson said. "We can't forget that loss. It doesn't matter at all what our record is because this is Nebraska."

Westbrook said he couldn't forget about the loss to the Huskers, and the Buffaloes wanted a win this season to regain some lost pride.

"Any time a team that is used to winning a lot of games and has a great tradition loses 52-7, they want to make up for that loss," Westbrook said. "Call it payback or revenge or whatever, we just want to win."

The Buffaloes come into the game against the Cornhuskers with a 4-2-1 record, which Johnson said was a major disappointment.

"We felt we could have had a chance at the national championship and an undefeated season," Johnson said. "We know that we're only one or two plays from being 7-0, so we are frustrated with our season."

Despite Colorado's frustrations, a win against Nebraska would put the Buffaloes in the driver's seat in the race for the Big Eight title, Johnson said, and salvage Colorado's season.

"If we beat Nebraska, it would be one of our preseason goals accomplished, and it would give us a chance to accomplish another goal of winning the Big Eight," Johnson said. "It keeps our season from being a complete loss."

Despite a frustrating season for the team, Johnson's individual statistics are better than last season's.

Call it payback or revenge or whatever, we just want to win.

—Westbrook, CU wide receiver

Through seven games, Johnson, the Big Eight's leading receiver and the nation's ninth best receiver, has 37 catches for 703 yards and six touchdowns.

Along with better receiving numbers, Johnson said he had also become a better all-around player, which he credited to having more time to concentrate on football.

Although Johnson is only in his fourth season at Colorado, he graduated in August with a degree in marketing.

"Graduating has given me more time to watch film and study what the

other team is doing, whereas before I needed to spend more time in class and didn't really watch any film," Johnson said.

"My attitude is better and I have been able to focus all of my attention on football since I haven't had to spend so much time on my classes. Now I am a better student of the game."

Johnson said his ability to study the other team had made him a smarter football player.

"My ability to read defenses and schemes that the other team is running, which come from being able to see more film, has made me a better player and has allowed me to do more things on the field," Johnson said.

While Johnson is having his finest season for the Buffaloes, Westbrook has struggled.

Westbrook has been held to just 23 catches for 298 yards and one touchdown this season.

Because Colorado has emphasized its running game more this season, Westbrook said he had to become a better blocker and complete player.

"Last year we threw the ball 60 times a game, so I never had to block," Westbrook said. "This year we have only been throwing about 30 times and running 30 or 40 times, so I am blocking on about 50 plays a game."

Westbrook said he had accepted his role and his receiving statistics no longer concerned him.

"I don't care if I don't catch a pass against Nebraska, and if I just have to block every time I will," Westbrook said. "As long as we win that game I will be happy with the way I played."

## CU player wants win as senior

By Mitch Sherman  
Staff Reporter

Colorado outside linebacker Ron Woolfork looks at Saturday's game against Nebraska as a challenge.

The Buffaloes haven't beaten the Huskers since Woolfork's freshman season in 1990, when Colorado won 27-12 in Lincoln.

The 6-foot-4-inch, 240-pound senior saw limited playing time in 1990 but has blossomed since. He recorded 13 sacks in 1991 and was named to the All-Big Eight second team. Last season Woolfork earned first team All-Big Eight honors, had 13.5 sacks and put himself in a position to contend for All-American honors this season.

Woolfork said he would take the personal awards, but team goals were more important. He said the Buffs

would show no effects from last week's 16-16 tie with Kansas State, and they would be ready for the Huskers this year.

"This game is a game we very much want to win, especially based on what happened in Lincoln last year," Woolfork said.

Last year's 52-7 Nebraska victory, in which the Huskers outdid the Buffaloes 428 yards to 144 yards, including 373 to 8 on the ground, has accounted for the thoughts of revenge that have weighed heavily on the minds of many Colorado players this week.

"Last year was definitely a reality check," Woolfork said. "We needed to find out where we were at. Now we know where we're at."

Where the Buffs are at is seventh in

the Big Eight in defense, giving up 397 yards a game. But Colorado ranks second to Nebraska in defense against the run, giving up 120 yards a game.

"Defensively, we struggled early, but now we're improving," said Woolfork, who has compiled 4.5 sacks and 33 total tackles through seven games this year. "Now we're going to put it all on the line."

An improved Colorado defense is not a good sign for the Huskers, who have won only once in their last four trips to Boulder. A fired-up Buffalo team is even worse news, Woolfork said.

"Realistically, I think this game is for the Big Eight title; it's been like that for the last five years. You're going to see the real Colorado football team show up."

## Game day

Nebraska at Colorado, Boulder, Colo.  
Saturday, 2:30 p.m.

## Huskers

Continued from Page 9

Osborne said the presence of the option in the Buffaloes' offense posed some problems to the Husker defense.

"They have worked on the option, and it makes a difference in the way you prepare your defense," Osborne said.

The Buffaloes average 239.4 yards per game rushing, but they will have to put those numbers up against Nebraska's rushing defense, which ranks first in the conference.

The Huskers have allowed opponents to run for an average of only 106.1 yards per game.

Although Colorado ranks first in the conference in total offense, it ranks seventh in the Big Eight and 77th in the nation in total defense.

The Buffaloes' defense has given up 397.1 yards per game, while the Nebraska offense has averaged 466.4 yards.

Despite the statistics, Osborne said Colorado had a strong defense.

"If there was a weakness for them early in the year, it probably was their defense, but they have come around and played well, so I don't know if it is a real weakness now."

## Bufs

Continued from Page 9

physically," McCartney said. "That's the only Big Eight loss we've had in five years, so we remember it."

The Buffaloes were able to manage only 144 yards in last year's game against Nebraska, but they may be able to improve on that figure Saturday with the league's top offense. Colorado leads the Big Eight with a 485.1 yards-per-game average.

McCartney said Saturday's game should come down to how the Buffalo offense does against the Husker defense, which is the stingiest in the conference, yielding only 333 yards per game.
