The Nebraska Deadislature approved Thursday a motion to bring all three NUU satellite campuses home to the city of Lickin.

Sparked by student selection group CABBAGE, deadislators passed the measure with a 36-12 vote. Gov. Ben Gelson is expected to sign the bill into law today.

The former O-NO campus will move from Omama to the abandoned Sentrum in downtown Lickin. The NUU Club-Med Center will share an Easter Campus storage area with the Apollus 900 spacecraft. This area also will double as reserved student seating for Nebraska football games.

The flUNK campus will move from Korny to the now-vacant, lead-and-asbestos filled Whatier building, 22nd and Wine streets in Lickin.

The move met with little opposition from Lickin-area deadislators.

"The University of No-Learning always has been and always will be the flagship of the NUU system," said Sen. LaVern Crosbystillsandnash of Lickin. "Moving the three satellite campuses to the capitol city will be the first step in dissolving their campuses. Dissolution is the only solution to the convolution of this institution ... Did I ever tell you I was a Liliputian?"

NUL Captain Greasy Spaniel is especially happy to have the Whatier Building occupied at last.

"We tried to move those stinkin' journalism people into there a few years ago," Spaniel said. "But now, we'll let the lead and asbestos kill of the folks from Korny, instead."

"I will have the power."

However, Spaniel has not given up on his goal to exterminate the Daily Harassment staff.

"That whole Whatier thing was

These are really boring pictures of the buildings soon to be occupied to O-NO and flUNK. These are really the buildings, the names have been changed to protect us from libel. We just wanted to see if anyone noticed. This was pretty darned clever, huh?

just too damn subtle," Spaniel said. "To take take out those weaselly paper dorks, you gotta take the direct approach. I'm firing up the TNT. If those suckers won't come out from under the the student union, I's a gonna blow 'em out."

Spaniel said that the young newsies had been quite adept at avoiding his sinister advances.

"Those free-writing freaks are yellow journalists," Spaniel said. "They're 'yellow' because they're scared. I'm gonna hunt them like the rodents they are."

"The great thing about consolidating the campuses is that all those writers are now in the same city," Spaniel said.

The captain then got philosophical as well as thoroughly confused in his use of metaphors.

"It will be like killing two birds with one bush in spilt milk under a bridge ... or however the damn thing goes," Spaniel said.

## Dirt for Pinktriangle space selected

From Staff Infections

The Captain's cabinet worked long into the night Thursday to reach a decision on what kind of dirt would be used for Pinktriangle space.

After a heated discussion, three members of the panel voted for Georgia Red Clay, two members voted for a modified silt, and two members voted to deny the Daily Harassment's 1994-95 budget increase request.

Without a majority vote, the cabi-

net took their feud outside to test the dirt (oops, sorry Kloister) SOIL with their bare tootsies.

"Ahh, this red clay is nice," Jimmy Greaser, the student affairs guy, said. "I'm changing my vote to this stuff. Go, Big Red!"

Jo-Anne Lightbulb, the academic affairs lady, was concerned how the Georgia Red Clay would hold up to a harsh Nebraska winter.

"I don't think it will retain heat," Lightbulb said. "Like the College Of

Busyness Administration, it is quite chilly."

The final vote appropriately came down to Ragriculture vice captain Scurv Omlette, a self-proclaimed dirt (we mean, soil) expert. Omlette voted for the modified silt and broke the deadlock.

"Yeeeeeew," Omlette said. "Now I can go see the movie '8 Seconds' with all my Easter Campus students."

## NUL students will learn to park, cheat next fall

From Staff Retorts

University of No-Learning students will enjoy more options when registering for fall classes.

Squirrel Hockey, erector of annihilation and records, announced Tuesday that NUL would be adding new courses for the 1994-95 school year.

Parking Space-hunting 201 will be offered through the athletic department. Students will receive three credit

hours and a 5 percent discount on their 1994-95 parking permit if they successfully complete the course. Driving gloves and hiking boots are required.

Friend-buying 85C, currently known as "Geek Rush," will be expanded to include all majors and all ethnicities. Prerequisites include big hair, overpowering perfume and wealthy parents for female students; and backwards baseball caps, big egos

and fast cars for male students. Sorry, incoming freshmen only. Fake I.D.'s will be supplied with the syllabus.

Hockey also said NUL would offer several sections of Educational Sychology 168 — "Test Cheating: How to Pump Your GPA up to Herculean Standards." Members of the NUL Kornhumper athletic teams will serve as lecturers. Bluebooks, microscopes and two-way wrist radios are required.
