

Racquetball

Continued from Page 1

slamming their racquet against the wall, kicking the wall and swearing a lot. To me, it's not that big of a deal to lose a point."

Basketball is Spanier's other sport, but racquetball seems to be taking over. Golf isn't an option for Spanier, either, because he can't afford to take

four hours from his day for a sport. Spanier was on the cross country team in high school, but he gave up running because "it gets kind of boring."

"I like to do something like racquetball where there's other people involved," he said. "It's a game."

It's a game Spanier has mastered, but I wasn't at a total loss. I scored three times at least. When playing with someone like Spanier, that's a start.

Otey

Continued from Page 1

Judge Pasco Bowman and Senior Circuit Judge John Gibson issued the following opinion:

"Otey had no state-created right other than the right to ask for mercy. This does not create a projectable interest in clemency ... (or) in which the Board receives his request or in having unbiased decision makers on the Board."

The opinion states that because neither the state constitution nor the clemency statutes impose any standards on the board, due process of the courts does not apply.

The panel also dismissed Otey's claim he was treated differently from prior clemency applicants and that Stenberg's vote in the hearing, and two of his assistants presenting the prosecution's case, violated his rights.

The majority opinion stated it was unrealistic for Otey to charge Stenberg should have been barred from sitting on the board and the assistant attorneys general from contesting clemency.

"To agree with Otey would hardly be federalism at its best," the opinion stated. "Otey has had his just due ... in

"To agree with Otey would hardly be federalism at its best."

8th U.S. Circuit Court Opinion

the courts of law these past 16 years. "The motion for stay of execution is denied."

Senior Circuit Judge John R. Gibson, the one dissenting vote, said he voted in Otey's favor in 1991 and Tuesday's argument was "even more compelling."

Gibson said he supported Otey's claim the hearing was fundamentally unfair. Stenberg's statements of objectivity "do not cure this defect," he said.

"The idea of a prisoner pleading for his life before a board that includes the very official responsible for his prosecution and conviction is shocking to the judicial conscience," Gibson wrote. "The State has created a playing field that is tilted toward denial."

A LOOK AT CRIME ON CAMPUS AND IN THE COMMUNITY

Woman robbed after using ATM

From Staff Reports

A 34-year-old Lincoln woman was robbed at gunpoint early Tuesday morning when she got inside her car, parked in a lot at 70th and Van Dom streets, police said.

The woman reported that she had returned to her car at about 6 a.m. after using an automatic teller machine.

After she got inside her car, two men opened the car door and demanded the money. One was armed with a black revolver, police said.

The victim gave the men the money and her wallet, police said. The total loss was \$63.

The woman described the men as being between 5 feet 6 inches and 5 feet 8 inches tall, wearing baggy jeans, dark tennis shoes and dark T-shirts. One man wore a dark bandanna around his head.

Later Tuesday, a second woman from Lincoln reported that two men who fit that description were standing by the same ATM just before 6 a.m.

The second woman said she was

going to use the machine but decided not to use it because the men were standing by it, police said.

Police have no suspects, but they said they believed the men the second woman saw may have been the same men who robbed the first woman.

Gunshots fired from a vehicle

From Staff Reports

Gunshots were fired late Monday night from the window of a vehicle driving north on 24th Street, police said.

Witnesses reported that a black male riding in the back seat of the vehicle stuck his arm out the window and fired five to six rounds from a handgun, which they thought was a black barreled revolver.

The incident occurred at 1633 N. 24th St. No injuries were reported.

The vehicle was described as a maroon four-door with tinted windows and Douglas County license plates, police said. Police have not located the vehicle.

Beginning midnight Monday

9:07 a.m. — Alarm accidentally tripped.

1:31 p.m. — Accident/injury, Area 10 loop, \$700 damage.

4:01 p.m. — Fire alarm accidentally tripped, Bancroft Hall.

8:11 p.m. — Wallet and contents taken, Campus Recreation Center, \$20 loss.

8:33 p.m. — Missing juvenile located, Abel Residence Hall.

9:11 p.m. — Injury/sickness, Bob Devaney Sports Center.

9:37 p.m. — Larceny from building, 10th and Charleston streets, case cleared.

Beginning midnight Tuesday

2:10 a.m. — Fire alarm tripped by smoke from incinerator, Manter Hall.

2:29 a.m. — Trespassing, 425 University Terrace.

7:01 a.m. — Vandalism/criminal mischief, Schulte Field House, \$5 damage.

8:44 a.m. — Credit card stolen, Nebraska Union.

9:54 a.m. — Accident, \$1,000 damage, 37th and Fair streets.

12:59 p.m. — Bicycle stolen, Manter Hall, \$1,500 loss.

2:15 p.m. — Bicycle stolen, Bancroft Hall, \$400 loss.

3:10 p.m. — Bicycle stolen, Westbrook Music Hall, \$550 loss, \$25 damage.

Parking

Continued from Page 1

City and East campuses and on StarTran's regular routes throughout the city.

The parking permit fee increase also will fund increased shuttle service.

Transportation Services will spend about \$50,000, Cacak said, for an "express" route that runs through City Campus. The route is for students living in the residence halls and faculty and staff members who want to get across campus quickly.

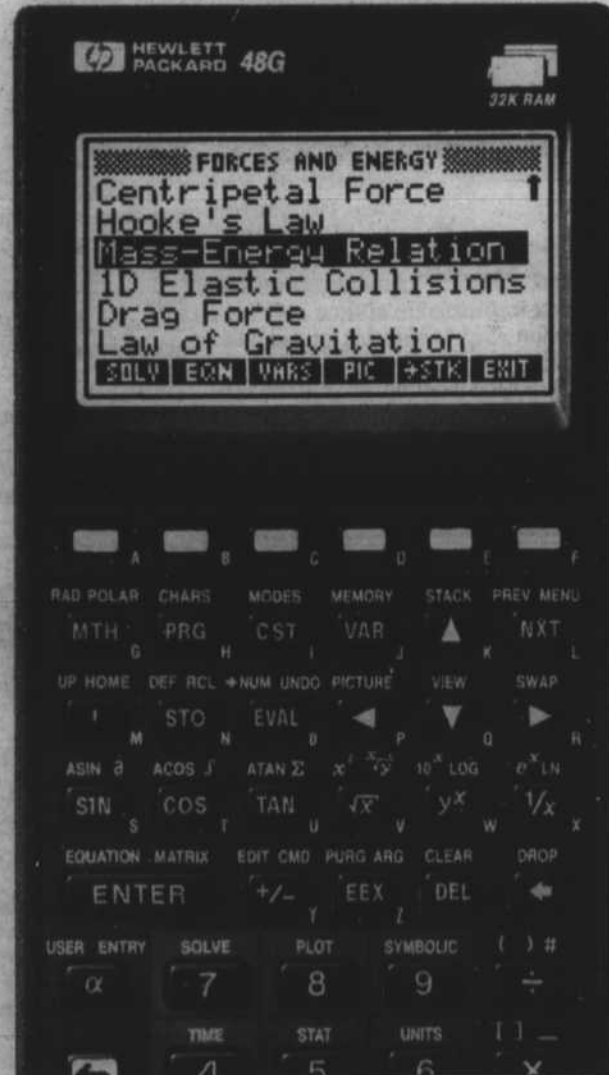

"In the past, employees have had to drive their cars all around campus to run errands," he said.

He said residence hall students never had been able to take a shuttle around City Campus.

The money for this service includes operation costs, bus depreciation and maintenance and the bus driver's salary. This figure is similar to other shuttle buses that the university operates.

A genius figured it out— HP built it in.

$$E=MC^2$$

• The HP 48G has built-in equations, functions, and menus to guide you through complex calculations.

• Access over 300 built-in equations.

• Push a button, choose from a pull-down menu, and fill in the blanks. Entering data is that easy.

• View 3-D graphs.

• Perform algebra and calculus operations on equations before entering values.

• Enter and see equations like they appear on paper.

• Work with different units of measure. The HP 48G will convert them for you. So, enter inches, centimeters, yards, and feet, together in one equation — it'll convert them.

• You'll quickly learn to operate it!

Pull-down menus guide you through problem-solving smoothly and quickly. Push a button, select an entry from the pull-down menu, and fill in the blanks.

• Check it out at your college bookstore.

The HP 48G graphic calculator gives you a whole lot more for a whole lot less than you think. Compare — the HP 48G fits your budget.
