HOT.

Burn, baby, burn — disco inferno.

MAC.

Not the burger, pal — the killer computer.

DEALS.

Cheap. Not as cheap as a taco, but hey.

Being a student is hard. So we've made buying a Macintosh® easy. So easy, in fact, that prices on Macintosh personal computers are now even lower than their already low student prices. And with the Apple® Computer Loan and 90-Day

Deferred Payment Plan, you can take home a Mac™ without having to make a single payment for up to 90 days.* Which means you can also take home the power to make any student's life easier. The power to be your best. **Apple**

*Hey, you wouldn't give your money away to just anyone, would you? Neither can we. Offers expire January 15, 1996. No payment of principal or interest will be required for 90 days. Interest accruing during this 90-day period will be added to the principal and will bear interest which will be included in the repayment schedule. The monthly payment quoted above is an estimate based on a total loan amount of \$1,839.36, which includes a sample purchase price of \$1,729 for the Performa 6214CD system shown above. The total loan amount also includes a 6.0% loan origination fee. Interest is variable based on the Commercial Paper Rate plus a spread of 6.35%. For example, the month of October 1995 had an interest rate of 12.17% with an annual percentage rate (APR) of 13.95%. Monthly payment for the total loan amount described above would be \$31.58. Monthly payment and APR above assumes no deferral of principal and does not include state or local sales tax. Monthly payments may vary depending on actual computer system prices, total loan amounts, state and local sales taxes, and a change in the monthly variable interest rate. Prequalification expedites the loan process, but does not guarantee final loan approval. Subsequent acceptable verification documents must be received before your loan is approved.
