Law & Order

A LOOK AT CRIME ON CAMPUS AND IN THE COMMUNITY

15-year-old in stable condition

SHOOTING

A 15-year-old boy who was shot in the chest Tuesday afternoon is in stable condition at Lincoln General Hospital.

The boy was shot with a .22-caliber handgun just after 4 p.m. inside a residence at 3735 Garfield St., said Lincoln police Capt. Jim Peschong.

SHOTS FIRED

A man in a white Ford Mustang fired five shots Monday night near 70th and Morton streets, but only

attracted witnesses.

Two witnesses, living at 7109 Morton St., saw a man fire a shotgun five times at 10:30 p.m. and quickly drive away.

Scott McFee, who was standing outside 7041 Cummings St., heard the shots and saw a 1978 or 1979 Mustang speed past him. The car had tinted windows, a louvered cover over the rear window and the word "cobra" on the side.

When police arrived on the scene, they found five empty shotgun shells. No damage was done.

BURGLARY

Two private subcontractors reported nearly \$4,000 in losses from a burglary that occurred over the weekend at an apartment complex under construction.

Police think at least one person entered a building in Pine Lake Heights Apartments, at 7031 S. 38th St., through an unlocked window.

The party removed tools belonging to subcontractors working on the building. Daniel Rowland of Raymond reported a \$1,123 loss and Stephen Harlow of Pleasant Dale reported a \$2,805 loss.

Leitzel lobbies for salary increase

Interim chancellor calls for approval of harassment policy

By Julie Sobczyk
Senior Reporter

Lobbying the Nebraska Legislature for a \$7 million salary appropriation and approving a revised sexual harassment policy will be big issues for UNL this semester, interim chancellor Joan Leitzel told the Academic

Senate Tuesday.

The University of Nebraska is working to maintain a 4 percent salary increase gained last year, against the veto of Gov. Ben Nelson, she said. Nelson has not included the appropriation in his budget this year.

"We're going into this with what could be a \$7 million deficit," she said.

Another concern, Leitzel said, is approving the revised sexual harassment policy.

Leitzel said the policy was in its final stages and was now being reviewed by NU's general counsel. It is

expected to be finished by next week.

"When we have the policy accepted by the counsel and the cabinet, I'll bring it to the senate and ASUN," she said. "It is time to get the permanent policy in place."

The policy should come before the senate for its approval at the Feb. 6 meeting.

In other business, the senate:

- chose Peter Bleed, professor of anthropology, as the senate's president-elect.

- decided to discuss a proposal to revise commencement guidelines at next month's meeting.

Paved UNL parking lots to cost \$1 million

Estimates on 10 construction projects for university parking lots were presented Tuesday at the monthly meeting of the Parking Advisory Committee.

Michael Cacak, director of transportation services, said the projects were part of a second phase to pave various parking lots on City and East campuses and extend the sidewalk

along the north and east portions of the East Campus Loop.

The projects are estimated to cost about \$1 million.

The most expensive project, which will cost \$361,000, will pave the remote lot south of the Bob Devaney Sports Center.

Other projects estimated at more than \$100,000 include:

- Paving an Area 20 lot at 10th and V streets (\$210,000).

- Paving a residence hall lot at 21st and Vine streets (\$137,000).

Cacak told the committee that construction would begin in May and has an expected completion date sometime in July.

cific topics would be assigned.

"We want to leave it as open as possible," Tuck said. "I don't want to pre-ordain a topic. I don't want people to come into this thinking they can only talk on one topic."

Most of the issues discussed in the forums should be related to violence, he said.

"We want people to talk about things they feel are important," Tuck said. "We want meetings where people can present things, so this is available for the campus and community."

The task force also will have closed forums where the members would discuss sensitive topics, he said.

Tuck said the forums would be held so that people could attend at least one. He said it was likely that one forum would be held in the evening on East Campus, and the others during the day on City Campus.

The task force should make a preliminary report to the chancellor in March and a full report in April, Tuck said.

"We don't want to drag this out," he said. "But we're still waiting on data from some sources."
