Primal

Continued from Page 9
 ever, her performance was the weak-
 est of the three main characters.

Gere should be adept at playing semi-scumball material; it seems to be a regular thing for him. The part is one he has down well, and he rates second as the lawyer out to capture the media's eye.

The most haunting performance comes from Norton. But to avoid the risk of spoiling one of the film's sur-

prises, I can't tell you why. I can say that Norton is nothing short of pure brilliance in this film. Not since Anthony Hopkins' portrayal of Hannibal Lecter has an actor's character remained so strongly ingrained in my skull.

With the exception of a few slow moments and a couple of slightly frayed plot threads, "Primal Fear" is an excellent film, well-played to a tee.

Family

Continued from Page 9
 in the poor, predominantly black areas of Chicago.

He is just one of the characters who are so incredibly real that I can see people I know in them.

Jones is a man who can take over any role and make it memorable. His deep voice combines with his overwhelming stage presence that brings

every character to life.

Because Jones is physically larger than Duvall, he is the one who teaches the other more about life. He laughs at him when he does something stupid, but then he turns around and helps him out when he needs it. He plays the hard-working, dignified man who everyone admires in almost every one of his roles.

The film is packed with emo-

tional moments that will definitely have the audience pulled in for the duration. I almost had a few tears in my eyes in the first 10 minutes, and by the end, the sleeves of my jacket were soaked.

This is one movie that will fill you with warm fuzzies, and I would not be surprised if you have an overwhelming urge to call home and talk to your mother when you get out of the theater.
