FIONA APPLE

COLUMBIA

\$9.88 CD

Although Fiona Apple is first and foremost a songsmith, her piano and haunting, dusky voice are the ultimate vehicles for her art. These are songs that can rock you with only the merest suggestion of guitar, bring you to your feet with delicate danceability and quicken your pulse through implacable strength.

THE CONNELLS
Weird Food & Devastation

The Connells are one of the most important alternative rock bands of the decade. Their edgy mix of introspective rock and melodic power pop have outlived innumerable trends and fads and a consistently young fan base grows with each project. Born of the fertile Southeast rock scene, The Connells have a fanatical following throughout the South, Mid-Atlantic, Mid-West and Mountain regions. The band's most collaborative effort yet, this album has a more direct, "live" sound than previous releases.

FUN LOVIN' CRIMINALS
Come Find Yourself

EMI

\$9.88 CD

Fueled by the funk of it and a deep seated desire to never work another lame day gig, Fun Lovin' Criminals' debut album marries hip hop's aggression, punk's insanity, the swagger of the blues, obscure literary references, demented plot twists that would give Hitchcock hives and the sweat of a honest to god live band.

SLEEPER
The It Girl

ARISTA

\$11.88 CD

Led by the outspoken Louise Wener, Sleeper's edgy PopPunk and subsequent U.S. media and concert tour laid a solid foundation for what comes next. *The It Girl* is 12 tracks of melodic aggression, Sleeper-style. The band wrote all of the album's songs with a newfound musical maturity, a superior production sense...and a bunch of really loud guitars.

SKA/PUNK

THE SUICIDE MACHINES
Destruction By Definition

\$9.88 CD

The Suicide Machines, an extremely high energy four-piece ska/punk outfit, are one of the most popular new bands to hail from Detroit, MI. They can easily sell over 1,000 tickets in the Motor City and the Suicide Machines "mania" is quickly spreading across the upper midwest region. In fact, the band was "discovered" as a result of WHY? (the major Commercial Alternative radio station in Detroit) playing a demo version of their song "New Girl."
