Morphine
"Like Swimming"
 Rykodisc/Dreamworks
 Grade: B

Since Morphine first exploded onto the national music scene — three albums and a handful of singles ago — the band has made more headlines for its lack of guitar than for its abundance of musical talent.

Fronted by two-string slide bassist Mark Sandman and finished off by drummer Billy Conway and saxophonist Dana Colley, Morphine's musical lineup has brought a new meaning to the term "power trio."

But by now, the novelty has worn off and this Boston-based (well, actually Cambridge, Mass.) band is being forced to stand up and make music that sounds good because it is good, not because it's different.

And "Like Swimming" seems to be just the answer.

The band's fourth album — and its first for mega-label Dreamworks — dabbles in much of the same brooding jazz and blues that made its first three albums such a treat to listen to.

Granted, innovation is no longer a real buzzword for this band. The members haven't made a lot of artistic progress through their four albums. But when the songs themselves still

manage to sound cutting-edge, who really cares?

The Prince-inspired first single, "Early to Bed," is a dark and mildly humorous tribute to after-hours partying.

Songs such as "Potion" and the title track are equally hypnotic, relying heavily on monotonous saxophone and bass lines that are liable to break into near insanity at any moment.

The result is an album that is deceptively mellow and — at times — blistering. In other words, it's the Morphine that fans across the world have come to know and love.

loid photographer Joey (Danny Nucci), while Molly's new politically minded hubby Keith (Jamie Denton) has taken home the solo spouses — plastic-surgery-postergirl Rowena (Gail O'Grady) and dog-loving self-help schmuck Alan (David Rasche).

Thus begins the inevitable "revealing the true sides" of all the characters.

Director Carl Reiner ("Dead Men Don't Wear Plaid") follows a formula that just as easily could have been used in a made-for-TV flick, but the added sexual innuendoes and language kicked it up to the big screens. Reiner's direction, while good, isn't anything outstanding; Midler and Farina say

The insult exchanges are pretty funny, and there are some lovely romantic moments during the movie (courtesy of some excellent chemistry between Farina and Midler), but the plot was just so sadly predictable after the first half-

lutely bizarre symptoms, so bizarre that no one can diagnose him. Grant starts following the trail, but as he gets closer to a fellow doctor (Gene Hackman), he finds himself framed, imprisoned and facing deportation.

Get out the adrenaline needles to stay awake through this piece of boring cinematic gristle.

PICK-OF-THE-WEEK — Something funny. Something touching. Something subtle.

Let's go two-out-of-three and rent "Kentucky Fried Movie" (who needs subtle?).

This hilarious flick is predecessor humor from the Zucker brothers, who made the just-as-funny "Airplane" and "Naked Gun" movies. The centerpiece of "KFM" is "A Fistful of Yen," a hilarious take-off on "Enter The Dragon."
