Standards Design Engineer- Standards Engineering

Description: This position provides the required planning, technical analysis, engineering and design services necessary for the preparation and implementation of the Construction Standards used for design and construction of the District's distribution system. It provides budget estimates, technical studies, periodic reports, technical specification for material purchase, and technical training to Engineering, Electric Operation and Customer Services Operations for proper application of Construction Standards. Incumbent will provide professional representation of OPPD in engineering activities associated with the Construction Standards within the T&D business unit, to outside vendors and others as required. Construction Standards must ensure the safe, reliable, economic operation and regulatory compliance of OPPD's distribution system.

Qualifications: To perform successfully in this position the incumbent must have a Bachelor's Degree in Electrical Engineering or equivalent. Advanced courses in Engineering are highly desirable. The incumbent must have a minimum of four years experience in related work and through knowledge and experience with distribution system construction and materials. The incumbent should also possess good oral and written communication skills. Registration as a Professional Engineer in the State of Nebraska is required. If you feel that you have the necessary qualifications and desire consideration for the position, you may request an interview to be scheduled April 7. Contact the placement Office for location. Additional information regarding the District may be found on their website at www.oppd.com. Resumes may be sent to chenng@oppd.gov for consideration. The Omaha Public Power District is an Equal Opportunity Employer.
