Engineering/Science Student
Engineering/Physical Science student who can work 15-20 hours/week on instrument project to collect data and control devices in environmental chambers. Full time during the summer. 472-6761.

Engineering-Substation Engineering
Description: Provide required analysis, evaluation, engineering and design for the construction and modification of the District's transmission and distribution substations. This includes preparation and administration of engineering plans, work orders, contracts, estimates, material and labor purchases specifications, permits and construction standards. In addition, coordinate project activities, provide field inspection, complete studies of materials/methodologies and represent the District at Substation Engineering and related activities as needed.
Qualifications: To perform successfully in this position the incumbent must have a Bachelor's Degree in Electrical Engineering or Civil Engineering or PE Certification required. Engineer-in-Training (EIT) certification is highly desirable. Good oral and written communications skills and human relations skills are highly desirable. Previous power engineering experience is desirable. Applicant should demonstrate a willingness to obtain Professional Engineering Registration in the State of Nebraska.
If you feel that you have the necessary qualifications and desire consideration for this position, you may request an interview to be scheduled April 7. Contact the Placement Office for location. Additional information regarding the District may be found on their website at www.oppd.com. Resumes may be sent to chenning@oppd.gov for consideration. The Omaha Public Power District is an Equal Opportunity Employer.
