ALTERNATIVE POP

SIXPENCE NONE THE RICHER
Sixpence None The Richer
\$12.88 CD

"Kiss Me," the album's first single, is a striking pop gem which celebrates the whimsical spirit of romance. The voices float over articulate, emotive guitar arrangements. Suddenly, you realize you've already listened to the third song on the album, unaware that the first two had ever ended. It's okay. Relax. That's how it's meant to be.

ROCK/ELECTRONICA

UNDERWORLD
Beaucoup Fish
\$12.88 CD

Their previous albums were directly influenced by the dance scenes of their time. But with their third record, *Beaucoup Fish* spans the band's more personal influences...from Jeff Mills style techno to stutter sharp as nails hip hop break beats to the modern classical sounds of Philip Glass and Michael Nyman, while still focusing on the dancefloor.

ALTERNATIVE ROCK

BLUR
Blur
\$12.88 CD

The new album is the sound of a band, in the words of Damon Albarn, "becoming completely free, becoming artistically liberated". The result is a sound at once abstract and yet crowded with detail and inspiring moments, making the music that best expresses them; of a group maturing into a fully realized musical whole.

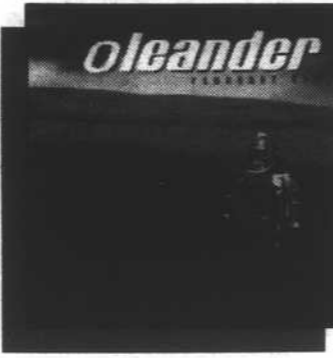

POP/COUNTRY

JILL MARIE
Loves Me - Loves Me Not
\$3.49 CD

Since the age of 10, Jill Marie's career has developed from a track show to a full-staged concert with five-piece band, concert sound and a large light show. Now at 18, a totally professional entertainer, she and her band Rockin' Country have developed into a high on stage show. Her dynamic stage presence brings the audience to their feet dancing.

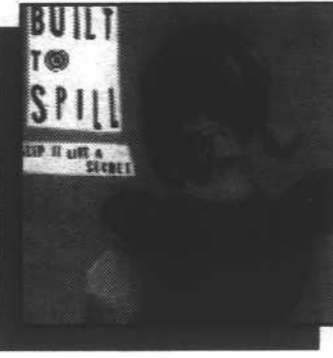

ROCK

OLEANDER
February Son
\$9.88 CD

What started out as a group of friends who got together to play live music as a weekend hobby, has turned into one of the hottest acts to come out of Sacramento along with Cake and the Deftones. With credible local airplay of songs such as "You'll Find Out," "Shrinking The Blob," and "Boys Don't Cry," Oleander has found the right formula for success.

ALTERNATIVE ROCK

BUILT TO SPILL
Keep It Like A Secret
\$12.88 CD

For the first time with a set rhythm section, critically acclaimed Built To Spill has created its most accomplished and focused album yet. Invoking less analysis and more volume, they have created songs that revel in a literate expressionism rarely heard in alt-rock, yet still rock with the same visceral impulses. Built To Spill may not be a secret much longer.

FOUNTAINS OF WAYNE
Utopia Parkway
\$12.88 CD

The New York-based group gives us a delicious dose of pop complete with harmony-laden, doo-dee-doo-punctuated heights with such tracks as "Denise," and "Red Dragon Tattoo." In a cool rocking style that recalls classic fab recordings, they expertly spin a ditty-filled universe with discussions of Big Apple, "burbs life and conflicts of love and loss.

ALTERNATIVE ROCK/POP

KORY & THE FIREFLIES
Radiate
\$12.88 CD

This is a group of talented musicians from South Dakota. The album is grounded in guitars, bass, drums and angular Midwestern soul. With jangly power chords and a Dylan-esque voice, the band ties small-town nuance into larger issues, creating a record that is steeped in honesty like only solid American rock can be.

POP/ROCK

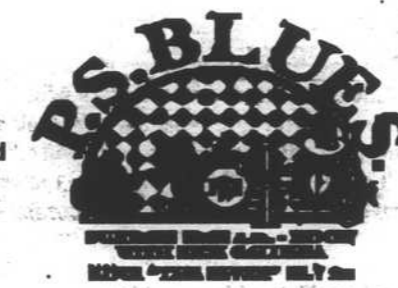

TAL BACHMAN
Tal Bachman
\$9.88 CD

Like Bowie, Elton John, and Paul McCartney, Bachman combines an understanding of pop music history with an unabashed love for the powerful chord progression, the unforgettable hook and the affecting lyric. The album is an explosion of exhilarating, hook-laden, timeless pop, a distillation of Bachman's lifelong torrid affair with popular music.
