

Service Council drive urges students to rock the vote

BY JILL CONNOR

Registering to vote may have never been easier for University of Nebraska-Lincoln students.

With the help of three different organizations, students can register to vote without even leaving campus.

Every year, the Association of Students of the University of Nebraska sponsors a voter registration drive with the aid of the Lancaster County Election Office.

This year, with the help of the ASUN Government Liaison Committee, the Service Council - a group of student representatives from student organizations and greek chapters - is co-spon-

soring the drive as part of its UNL Vote 2000 campaign.

The registration booths will be in the Nebraska Union on Friday.

"Our goal is to hand out 7,000 registration cards around campus," said Laura Hampton, president of the Service Council.

UNL Vote 2000 is being held in collaboration with a national campaign put on by Youth Services called Service Vote 2000. Youth Services, a national youth organization, has the goal of getting more than 10,000 new voters.

The Lancaster County election office also will be sponsoring registration booths in Neihardt Residence Center today and Friday.

Other events on campus in connection with the Service Council's UNL Vote 2000 will make it easy for students to vote.

Students can attend an Election Day Party at the Nebraska Union. It features free food, speakers and bands celebrating Election Day on Nov. 7.

Students also can participate in Walk to Vote 2000 on Election Day, where groups will be meeting on campus to walk to the Bob Devaney Sports Center to vote at the top of every hour.

"It's starting that lifelong commitment to be registered and casting your vote," said David Shively, Lancaster County Election Commissioner.

vote as easy as we can for students."

Shively said candidates on all levels of government will have an effect on lives of students.

Hampton said the issues this year will affect all students - whether they are going into the military or into education.

"I think students don't realize that," Hampton said.

Lindsay Acklie, a sophomore accounting major, said the registration booths on campus would prompt her to register and vote.

"I think it's always easier to do things when there is support," she said.
