

LOCAL.

Don't forget to order a copy of the Annual.

Professor Lees was ill for a few days last week.

Miss Harley spent Saturday and Sunday in Crete.

The Hayden Art Club met in Chapel Tuesday nights.

Pipes are quite fashionable at University ball games.

Messrs. Dixon and Duff spent Sunday in Nebraska City.

The U. of N. nine plays with the Cotner team Saturday.

Miss Hall of Omaha is visiting her friend Miss Curtice.

H. A. Wise, the Haircutter, at Thirtieth and O streets.

Young ladies are fond of flattery, especially Mr. Flattery.

Mr. W. S. McLucas spent last Sunday at his home in Fairbury.

Miss Gellely of Fairbury will spend Sunday with Miss Whiting.

A University party will be given Friday evening at Lansing Hall.

Miss Hall of Omaha is the guest of Miss Estelle Curtis this week.

Messrs. Tines and Pope joined the Unions on last Friday evening.

Look for the new Freshman hats. Simple, graceful and convenient.

The seats on the campus are being extensively utilized—between rains.

Mrs. Richards, wife of Professor Richards, has been ill for the past week.

The Delian officers for the third "period" were "initiated" Friday night.

Interest in tennis is reviving under the influence of returning warm weather.

It is about time that the annual Junior-Senior banquet was being arranged for.

The Freshmen will give a reception on the twenty-seventh at Temple Hall.

Statistics show that the Glee Club boys gained five pounds each on their trip.

J. B. Barnes of Norfolk was in town looking after the welfare of his son John B., Jr.

An informal reception was given for the Glee Club in Union Hall Monday night.

The Hayden Art Club had a very interesting meeting in the Chapel Tuesday evening.

The new shapes in Fedora and Stiff Hats have arrived at the Ewing Clothing Company.

Every student in the University should subscribe for at least one copy of the Junior Annual.

The Sophomores and Freshmen are going to indulge in a dance next Friday evening at Temple Hall.

Just arrived, today, the Late Nobby Shapes in Neckwear. New patterns. Ewing Clothing Company.

Miss Cayford of San Francisco will deliver a lecture on the "American Girl" in the Chapel Saturday afternoon.

It might be well for the persons who swipe the college papers out of the mail boxes, to take out a subscription.

The Alcazar Shoe Store is making it an object for students to trade with them. New and Stylish Goods Cheap. 1406 O street.

The New Members program of Delian society will be given on Friday evening. An especially meritorious program has been arranged.

If you are looking for a new suit of clothes and want Style, Quality and something Reliable, go to the Ewing Clothing Company.

Several old University boys came down from Omaha Tuesday to attend the Light Infantry minstrel show. Among them were Messrs. J. B. McDonald and Norman Peters.

The Shakespeare class, having taken up the study of Othello, are learning how to fall in love systematically. This will undoubtedly be of great practical benefit to a large number of the class.

A picked class of girls from the University Gymnasium will assist in the Y. M. C. A. exhibition at the Lansing next week. The girls will take the place of the ladies' class at the Y. M. C. A. gymnasium.

Botanizing parties are becoming quite popular. A singular story is abroad of one gallant young man who took two young ladies to Saltillo to hunt specimens. The moral that goes with this story is: "Boys be careful to have money to pay railroad fare in case your horse runs away."

The Annual has just gone to press. Now is the time to "oppress" the managers with your subscriptions.

It is reported that the Kappa Kappa Gamma fraternity pledged three young ladies for initiation into the mystery of that society.

"Are we going to have camp this year?" This question is troubling the minds of the Cadets. Of course they all want to go.

The battalion "showed off" before the Regents last Wednesday evening. Battalion drill is being held every drill evening now.

It was heard remarked that the Kelly branch of Coxey's army avoided passing through Lincoln on account of the University Cadets.

There has been considerable misunderstanding over the society exhibitions in the annual. It has finally been decided not to charge for space as at first proposed.

The interest in field-day sports is shown by the great number of men in training for the events. All the athleticly inclined in the University should turn out and help to make local field day a success.

At a called meeting of the Junior class the following officers were elected for the spring term: Emma Boose, president; A. J. Weaver, vice-president; Ella McCrosky, secretary; J. W. Searson, treasurer; and W. V. Hoagland, sergeant-at-arms.

One of our venerable post-graduates was going around "broke" the other day innocently unaware that he had nine dollars in the bank. One of the Seniors, too, was very much surprised to find he was two dollars richer than he thought. These two are recommended as subjects for psychological experiments. They should be made examples of.

Intelligence was received at the University yesterday afternoon announcing the death of E. A. Thomas, a former member of the class of '94. Ever since leaving school his health was quite poor and he was compelled to spend most of his time in Colorado, where his death occurred. He was a very bright young man and exceedingly popular while in the University. His many friends will deeply regret to hear of his death.

A mass meeting of the students was held in the Chapel yesterday afternoon for the purpose of taking some action relative to the proposed joint debate with Kansas State University. The Chair was authorized to appoint a committee of five to confer with a like committee of the faculty, and make all the arrangements. The committee will report at a future meeting, notice of which will be announced later.

A great surprise was experienced by many young ladies, friends of Mr. Eugene Brown, when it was announced that he was a charter member of the new Delt Chapter. Mr. Brown did not wish to shock the people too greatly at first so he took a little pleasure trip before entering school again after the event. Of course it is understood that this is Shakespeare's old method of working up interest in behalf of a favorite.

The second joint debate between the U. B. D. C. and Cotner University will be held in the chapel on May 11. The question for discussion is: "Resolved that the principles and policy of the A. P. A. are inexpedient and un-American." The U. B. D. C. affirm the question. Judging from the large number of University students that yelled for the boys at Cotner, our chapel will be entirely too small to accommodate the crowd.

At a meeting of the students of the Electrical Engineering department, on Saturday evening, April 7, the Society of Electrical Engineers was formed and the following officers elected: M. M. Maghee, president; E. N. Corbin, vice-president; C. A. Skinner, secretary, and C. Warner, treasurer. The object of the society is to further the interests of electrical engineers and to lead to broader practical individual investigation. Semi-annual entertainments will be given by the new organization.

In the columns of last Sunday's State Journal appeared an article entitled, "History and Fiction," by Charles Kuhlman of the University. Prof. Fling's good training in historical evidence shows to a great advantage here. Mr. Kuhlman's plan was to criticize an account of the battle of Issus in a previous edition of the Journal, in which he succeeded admirably. The class in Greek and Roman History spent the recitation hour on Tuesday trying to tear apart some of Mr. Kuhlman's statements.

The young ladies of Kappa Kappa Gamma had a meeting last Saturday afternoon at the home of Miss Ena Ricketts. Miss Ellen and Miss Francis Gere and Miss Panscoe were pledged. After the pledging service an elegant dinner was served. About thirty Kappas were present.

It is unfortunate that so small a number of students attended the Glee Club reception in Union Hall on last Monday evening. This was doubtless due to the short notice given, as well as to lack of systematic preparation. As it was, only about one-third of the Club were in attendance and but a small number of students were present to extend to them hearty congratulations on their successful tour and a cordial welcome home.

The Girls' Gymnasium exhibit is the principal event for May. The girls are working much harder under their new instructor, Mr. Flattery, than they have ever worked before. Few complaints are heard and the girls are very enthusiastically planning for what promises to be an excellent exhibit. Several new features will be introduced. A new class in fencing has been organized. A volunteer class of thirty girls will work with single sticks, a picked class of ten will work with sabres and two of the girls will have a regular fencing bout. Individual work on the flying rings, bars, and so on, will be an attractive feature. There will be class work as follows: Fancy marches, walking exercises, club, dumb bell and bar drills, running exercises and work on the various machines.

We earnestly invite all Students to visit our store before making any purchases in the line of Dry Goods, Cloaks, Ladies' Furnishing Goods and Men's Furnishing Goods. Our stocks are especially attractive. We refer new students to any of the professors or any old student in the University as to our manner of doing business.

Very respectfully,
MILLER & PAINE.
133 to 135 South Eleventh St.

Dr. A. P. Burrus,
DENTIST,

Office days in City Tuesdays, Thursdays and Saturdays

EXTRACTING TEETH WITHOUT PAIN.
As a local anesthetic, Phenate of Cocaine is the best yet known, and is not followed by any unpleasant symptoms or soreness of the gums. The dental bulldozer who reported that he had ulceration and sloughing of the gums, had he lived in the time of St. Peter, he would have been buried with Ananias and Saphira! It is the best agent for common use, and entirely without danger. It is only those who use hydrate of chloral in excess that are troubled with ulceration of the gums.

BROMIDE OF ETHYL
Is used much of late, and is intermediate in its effects, between chloroform and gas, and less expensive than the latter.

CHLOROFORM
Is preferable to other agents in most cases where several sore, inflamed teeth are to be extracted at a single sitting. We have used chloroform extensively for over thirty years without accident.

NITROUS OXIDE GAS
generally works well where there is not more than two or three teeth to be extracted, but is more dangerous than is generally supposed, especially when the capacity of the lungs has been diminished by disease or the heart dilated. Several deaths from its use have been reported in medical journals of late. Dental journals do not publish these cases for fear of injuring the gas trade.

WASHED ETHER
has long been used with great success in brief operations, but is not well adapted to prolonged surgical operations. But very few accidents have happened from its effects, and those mostly from its prolonged use.

The Columbia Standard Bicycle of the World,

graceful, light, and strong, this product of the oldest bicycle establishment in America still retains its place at the head. Always well up to the times or a little in advance, its well-deserved and ever increasing popularity is a source of pride and gratification to its makers. To ride a bicycle and not to ride a Columbia is to fall short of the fullest enjoyment of a noble sport.

GOLD CROWNS

Molar Roots Banded

with Gold and Porcelain Crowns, the finest and most durable crowns ever made, and unexcelled for beauty.

BRIDGE WORK OF EVERY STYLE.

Removable Bridge Work
All Gold or part Vulcanite.

We are putting up the finest removable bridge work on gold and French Vulcanite ever made, superior to anything ever before offered to the public. Can be worn with the greatest comfort, and costs less than ordinary bridge work. Is easy to repair, but seldom breaks or needs repairing. We also put up artificial teeth with gold palate, the finest artificial teeth ever made. All work warranted first class or no sale. This style of work is supreme perfection for public speakers. Aluminum can be used instead of gold, if desired. The back under molars can be restored with the greatest perfection which are so useful, and prevent the cheeks from sinking in. Fine gold fillings of pure gold at very reasonable rates.
