Dr. Lloyd is one of the few professors who has the gift of always seeming to take a personal interest in each one of the pupils and in consequence there is not a student who has had work in the Chemical department who will not feel a sense of loss at Mrs. Lloyd's departure. In the long time she has been connected with the University Mrs. Lloyd has done a wonderful work in building up the Chemical department, how large a place she has filled will only be realized when she is gone. The love and good wishes of all her pupils go with her to her new home.

## The Columbia Standard Bicycle of the World,

graceful, light, and strong, this product of the oldest bicycle establishment in America still retains its place at the head. Always well up to the times or a little in advance, its well-deserved and ever increasing popularity is a source of pride and gratification to its makers. To ride a bicycle and not to ride a Columbia is to fall short of the fullest enjoyment of a noble sport.
