"ANY OLD THING."

Spence was sitting at his desk just figuring up his gains for the day. He was quite well satisfied, and smiled to himself with joy. There was no one in the place but a university student, and he was not bothering much, when one of the university authorities stepped down into the store. Spence looked up and smiled anew at this possible increase in the day's business. The distinguished personage from the university purchased an Omaha paper and a local one. He was reaching into his pocket, when he spied the student diligently turning the leaves of one of the popular weeklies. An animated conversation took place between the two upon some university topic, both left the place together, laughing and in the best of mood. "Well I'll be doggonned!" ejaculated Spence. "I wonder if he thinks I'm running a benevolent institution!" Thereupon he sat down and entered up an account for seven cents against one of our dignitaries.

It's an ill wind that blows nobody good. The proprietors of the lunch room looked out joyfully at the raging storm, and wondered how many would not be able to go home for dinner. And they prepared for increased patronage that day.

"I'm going to stop the Nebraskan" she exclaimed decidedly. "Here I've been reading for the past two hours and have not read half the news, and it don't take me fifteen minutes to read everything in that other—" but just then the gong sounded.

A good deal of the college slang can be traced directly to Shakespeare. Here we have Macbeth saying, "This push will cheer me."

"STORIES IN PASSING—"Can you open it?" "Nope, pair tens is the highest I've got. Put in one to sweeten it."

"I give seven." "Beats me, what's the trump."

"What did you get on the last exam?" "Fifty-nine and flunked." "Well I'm ahead of you—73."

"Are you going to the show tonight?" "Yes, if I get complementaries."

"That don't seem like the same old smile." "No, we don't speak as we—"

"I have a hair raising story I would like to relate to you," began the story teller to the editor-in-chief of the Junior Annual. "Well in that case I don't see what good it will do to tell it to me," and Mac wiped the perspiration from his expansive brow.

Leslie looked at his latest photograph with the greatest satisfaction. "Surely he will put one of those in his case," he thought. But days passed and he began to give up looking to see his face in the photographer's case, as a sample of what he could do in the way of his art. A month later and another dozen was ordered. Even this one did not satisfy the photographer evidently, as Leslie waited weeks and weeks to see if this time at least, the artist would place him on exhibition in his window. Then he gave it up as a bad job. A week later he saw the smiling face of his chum, gazing at him from that enviable position. Then he wondered some more. He compared the two photographs, and was not able to see why the photographer should make such a discrimination. And he swore that he would get no more of his trade. Some time afterward a flood of light seem to overwhelm him, when he heard his chum say, "Well if I had the money, I'd go down and get those pictures, but I guess it's too late now, as I see he has them on exhibition."

"And now, little children," said the Sunday school superintendent, "if you are good children, some day you may wear a golden crown." "Paw's got one on his tooth now," chirped the smallest and newest boy.—Indianapolis Journal.

As In the Beginning—Railroad Manager: "Here, Blobs, this new time table won't do at all!" Blobs: "I thought it very explicit, sir." Manager: "That's just what's the matter. The first thing you know the public will be able to understand a time table as well as we. See if you can't complicate it a bit."—San Francisco Wave.
