

the Lincoln pitcher assumed an attitude, in the box. The score completes this narration but partly for want of room and partly out of sympathy for the gentleman we will not publish the score which was largely made by the other side. The moral is, never misrepresent your occupation when registering.

College classes, attention! A few enterprising alumni have offered a beautiful pennant for the college class that shall organize and maintain the best foot ball team this season. The championship to be determined by a series of games with each other. Now then, if this proposition is not accepted we will feel that all efforts to arouse more enthusiasm in athletics is in vain. These alumni have assured us personally that they mean business and that a pennant of which any class may feel proud to carry with flying colors will be forthcoming if their proposition is accepted. Every college class whether it feels certain of winning or not should enter the contest with a vim and determination to see this new innovation inaugurated. Let each class appoint a committee to confer with a like committee of the other classes and arrange a schedule at the earliest possible moment. The pennant is to be awarded to the class having the highest per cent. at the end of the fall term. Accept this proposition before it gets cold.

The athletic association met in the Palladian hall, Saturday, Sept. 26 and elected the following officers: President, J. H. Johnston; vice-president, G. L. Sheldon; secretary, Paul Colson; treasurer, F. E. Barnes. The large meeting was characterized by enthusiasm and earnest work. The best of feeling prevailed throughout and the result of the election bears ample testimony to the earnest efforts put forth for the success of the association. The men elected are, perhaps, too well known to most of the students to need any introduction. Mr. Johnston has been one of the foremost in arousing interest in athletics and will work hard for the success of the association. Mr. Sheldon, while not excelling in any particular sport, is very fond of out-door sports and has rare abilities as an executive officer. Mr. Colson was the base ball twirler for the team last spring and takes a lively interest in all athletic sports. Mr. Barnes is also a base ball player and has won prizes in other sports. In fact every man elected is an earnest and competent worker. We hope these officers will be given the same loyal support and encouragement that the officers last year received. A committee consisting of J. H. Johnston, P. A. Colson, and C. M. Skiles were elected to prepare a constitution and submit it to the association at its next meeting.

The prospects for a successful year in athletics were never brighter in the history of the university than at the present time.

THE GYMNASIUM

will be opened October 5 under the new and competent instructor. Several hundred dollars have been used in improving the hall and furnishing it with new and better material. Hereafter the girls will be required to take two hours work per week in calisthenics. The boys of course will not be outdone and will no doubt devote all the time to gymnasium work desirable.

OUR CHANCELLOR

is thoroughly alive to the needs of the university in this direction and has spoken many words of encouragement to our athletes. It seems impracticable to lay out a

CAMPUS

on the college farm at present. It has been suggested that it might be advisable to lease the baseball park, corner of M and Twenty-third streets. This park is in easy reach and would certainly be an excellent place in which to hold sports of all kinds. The distance is not far, even to walk, and if students could be induced to walk out all the exercise needed could be had by walking back.

THE FOOT-BALL TEAM

promises to be as strong this year as last. There are two or three important positions to be filled, however. A goal tender and two half backs are needed. The rush line that proved so invincible to antagonists last year is back and ready to "line up" at the command of the captain. The places of such men as Troyer, Mockett and Morrow are hard to fill but no doubt there is plenty of good material among the new students.

Those who are ambitious to belong to the best foot ball team in the state should begin to show their proficiency on the campus. It is probable that a match game with one of the Omaha teams will be arranged for within a week or so. Hence there is no time to be lost.

THE BASE BALL TEAM

is not in as good condition as the foot ball team, for various reasons: First, the team has not played a single match game for over a year. There are enough old players back to form a good nucleus for a team and steps will be taken at once to organize a strong team and arrange for a short schedule of games to be played before cold weather. If the university has a base ball team let us see it face another team on the diamond this fall.

ALUMNI AND FORMER STUDENTS.

'90—C. E. Tingley will attend the law school.

Miss Nettie Forehand, '94, is teaching at Elm Creek.

A. C. Pancoast, '94, is teaching school near Ashland.

Miss Fannie Morton, '94, is teaching school near Stella.

'90—Stoughton will study theology at Harvard this year.

C. A. File, '94, is attending Stanford university this year.

'88—Jared G. Smith is on his way home from Australia.

'90—H. C. Peterson will teach in the North Platte high school.

W. C. Dorsey, '92, is now engaged in the banking business at Beatrice.

'89—Newcomer will henceforth hold down the chair of Greek at Cotner.

'88—J. R. Schofield will take some special work in the sciences this year.

'91—P. L. Hibbard is chemist on a large sugar cane plantation in Louisiana.

Miss Belle Cross, '93, was visiting friends at the university one day last week.

Will Larson, '94, will not be in school this year but will work on his father's farm.

Miss Passmore, a former student of the university, has returned to continue special studies.

Miss Nellie Scott, of Tecumseh, is in very poor health and will not return to school this year.

'90—McCLATCHIE-MORRISON. Married on September 9 at Compton, Colorado, A. J. McClatchie to Miss Anna D. Morrison. They will be at home at Elsinore, Colorado, where Mr. McClatchie will teach the coming year.
