

## NOTES OF THE CLASS GAMES.

Does any one doubt that '92 will win the pennant?

White took seven chances at goal and missed only one.

Hereafter Sheldon will coach '94 while Larson will do the same for '95.

Marlay will wear a coat of mail for Porterfield to butt against hereafter.

Ferguson says there is a great deal of work about this foot ball business.

The sop. smores say that they would have beaten had not the freshmen run them into a Nusz.

Chandler, after making some excellent runs, had his ankle sprained after which he changed places with Hyde.

The work in the gymnasium is well under way now. There are about 200 students taking regular work of which 125 are young women. Professor Bowen expressed himself as well pleased with the manner in which the students are taking up the duties in his department. The work will be kept on a strictly systematic basis. No student will be allowed to do work for which he is not fitted. More new apparatus is expected soon which will take up all the spare room that is now available. With a well equipped gymnasium, foot ball teams, and a prosperous bicycle club there is no good reason why every student should not take some kind of physical exercise.

The U. W. C. made its first run Saturday, October 24th. The first stop was made at the poor farm about six miles north of Lincoln. At this place the wheelmen were shown over the premises and the weary given a chance to rest a little. The kind hearted hostess captivated all by saying she would give each a piece of pumpkin pie—if she had any to give. The club now continued their journey northward reaching Raymond before 4 o'clock where "Fresh Cider" was the first sign that attracted their attention. Sheldon says the whole town contained but one keg of cider, consequently there was not enough to go around. From side remarks of different wheelmen, we should judge that at least one byker received a sufficiency. After riding through the principal streets and visiting the places of interest in the city, the party set out on their return trip, reaching home about 6:30, still able to give the university yell. From reasons best known to the club, one of the members came back in a Pullman car. Another trip will probably be taken next Saturday.
