

U. OF N.		DOANE.
Anderson.....	center rush.....	Stull
Porterfield.....	right guard.....	Williams
Yont.....	left guard.....	Farr
Jones.....	right tackle.....	Cope
Hyde.....	left tackle.....	Patton
Skiles.....	right end rush.....	Waterman
Church.....	left end rush.....	Geiss
Johnston.....	right half back.....	Fuller
Flippin.....	left half back.....	Mains
Pace.....	quarter back.....	Leavitt
White.....	full back.....	Sweeney

SUBSTITUTES.—Fisher, House, Ward, Wilson, Doane; Stockton, Barkley, Mosher, Wynegar, U. of N.

The U. of N. won the toss and took the goal favored by the wind, Doane taking the ball. The ball was dribbed and Doane's rush line was blocking well for Sweeney, but the ball was passed to Mains. The ball went to U. of N. and in less than six minutes a touch down was made. This is how it was done. Flippin made thirty yards around right end, then Johnston five yards around left end. Doane stopped the next run of Flippin, but on the next trial Doane's rush line receded five yards and a few minutes later Johnston was pushed through the line for four yards more. Flippin hammered the rush line for three further and went down with the ball within two yards of goal line. Johnston was quickly pushed over the line. White punted out but Yont muffed the ball and Doane took it but a few yards from the goal line. Mains now tried the strength of the U. of N. rush line and found Porterfield and Jones disputing his progress. The next snap by Stull was spoiled by Pace who soon got the possession of the ball fifteen yards from Doane's goal. Jones and Flippin soon put the ball five yards nearer and Pace carried it over, but the referee did not see it touch a second man before Pace received it and Doane got the ball on the twenty-five yard line. Doane surprised her opponents at this point by forming a good wedge but Anderson, Yont, and Porterfield threw themselves under it and no gain was made. Once more the wedge is tried and two yards are gained. Three more wedges failed to gain the necessary three yards, and ball went to U. of N. on four downs. Johnston bucked the lines for two yards; Flippin fifteen yards round left end well guarded by Church. Again Flippin gains two yards and on the next trial Johnston is pushed over a touch down. White kicked goal. Score 10 to 0. Doane took the ball in the center of the field and Sweeney made ten yards behind the V before being tackled. Four wedges by Doane fail to gain five yards and Porterfield got the ball. Flippin made twenty yards round left end. Three yards more are gained through center, then Johnston and White are each tackled without gain trying to get around left end, and Doane got the ball on four downs. Three wedges and a trial through the line by Mains failed to gain much ground and Porterfield at last sneaked in the wedge and turned the ball over to center rush Anderson. Flippin bucks the rush line but Doane stands firm and the next time the left end is circled for five yards. Two wedges net six yards. Skiles got out of the next wedge, and by the excellent blocking of Church, gained thirty yards and a touch down. White missed goal. Score 14 to 0. Sweeney brought the ball out to the twenty-five yard line and kicked it well down to the center of the field but White was waiting for it and punted back to Sweeney, who was tackled by Pace before the ball could be returned or run with. The teams lined up for a scrimmage and Sweeney made a good run round left end for fifteen yards. White, Mains, and Fuller did some excellent blocking. Johnston, aided by two or three others, finally got Sweeney down. Fuller next muffed the ball, and Pace spoiled the next snap. Sweeney punted ten yards, White muffed and Church fell on the ball. Johnston gained through line five

yards. Stull spoiled next snap back, White punted and Sweeney muffed ball, Hyde fell on it, gaining fifteen yards. Doane's rush line was plunged through for six yards. Then Flippin came out of a wedge and gained ten yards and touch down, no goal. Score 18 to 0. Doane kicked off from twenty-five yard line. White muffed the ball and Fuller got it, gaining fifteen yards. Sweeney made ten yards round left end. Mains then ran up against Porterfield and Jones twice without any appreciable gain. Sweeney punted again and White, who had from the first been playing with severe injuries, muffed the ball and Waterman got it, with ten yards gain. White then retired, and Mosher took his place. The U. of N. soon got the ball on four downs. Skiles made ten yards out of a wedge, and from the next one Johnston made a like gain. When the next wedge stopped, Skiles started down the field, and while the crowd was chasing him, Jones, who had the ball, was making tracks for the goal. After a gain of fifteen yards, Jones was thrown by Sweeney and dropped the ball, Sweeney gaining possession of it. Doane gained five yards by a foul. Fuller tried the right end, but was tackled by Johnston, losing three yards. Sweeney now tried to punt, but Pace broke through and spoiled this play, while Johnston picked it up, gaining five yards and a touch down. Mosher missed goal. Doane took ball on twenty-five yard line, and Fuller kicked off. Ball was returned by Mosher and Hyde nailed it with a good gain. First half ended at this point. Score U. of N. 22; Doane 0.

SECOND HALF

Doane had given up all hopes of winning the game now, but, with the wind in her favor, hoped to score before time was called. The U. of N. started the ball with a V, but made no gain. The wedge was formed, but the ball was dropped. Mains, who always stood up in front and watched the ball, of course got it. Fuller then made ten yards, aided by good blocking. Mains bucked the center for two yards. In the scrimmage Pace got through and made Leavitt make a poor pass to Sweeney, who lost ten yards. On the next trial Sweeney gained ten yards round right end. Three more yards were gained with the wedge. Mains toes the line and Fuller darts round right end, with a gain of five yards, Sweeney punted now and Mosher was unable to get it, but Waterman had no trouble in picking it up. Fuller made three yards round left end. Pace in tackling him was slightly hurt. After a few minutes rest, Pace decided to play. The ball was now within fifteen yards of goal line. Would Doane score? That was there the question that everyone asked and few dared hazard a reply. Doane formed the wedge, while Porterfield slipped through and stole the ball. A sigh of relief and joy burst forth from the "old gold" sympathizers. Substantial gains were now made by the wedge and end plays. Mosher punted and Hyde and Skiles broke through, and after Sweeney had played with the ball awhile, they took possession of it, gaining about twenty yards. In the wedge that was formed the ball was dropped but Church got it and made a pretty lunge into the wedge, which was not entirely broken, and gained three yards. Doane's rush line holds now for four downs and the ball is surrendered. Doane begins punting again, her only means of substantial gain. Ball was caught by Mosher, but Doane's ends were on him before it could be returned. It was but a few minutes now till Flippin ran out of the wedge and made a touch down. Mosher punted out and Pace made a fair catch, no goal. Score 26 to 0. Doane kicked off twenty five yard line and Geiss got the ball; in the next wedge Hyde got through and stopped Fuller. Sweeney now made a poor punt and Yont fell on the ball. About seventeen yards were gained by wedges, but the ball was lost on four downs. Sweeney made a gain of five yards by crawling and running, but Anderson got the ball before further
